**UNITED STATES SECURITIES AND EXCHANGE COMMISSION**  
**Washington, D.C. 20549**

**FORM 10-Q**

**Quarterly Report Pursuant to Section 13 or 15(d) of the  
Securities Exchange Act of 1934**

**For the Quarterly Period Ended June 30, 2013**

**Commission File No. 1-13653**

**AMERICAN FINANCIAL GROUP, INC.**

**Incorporated under the Laws of Ohio**

**IRS Employer I.D. No. 31-1544320**

**301 East Fourth Street, Cincinnati, Ohio 45202**  
**(513) 579-2121**

Indicate by check mark whether the Registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months, and (2) has been subject to such filing requirements for the past 90 days. Yes  No

Indicate by check mark whether the Registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T during the preceding 12 months (or for such shorter period that the Registrant was required to submit and post such files). Yes  No

Indicate by check mark whether the Registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer or a smaller reporting company:  
Large Accelerated Filer  Accelerated Filer  Non-Accelerated Filer  Smaller Reporting Company

Indicate by check mark whether the Registrant is a shell company. Yes  No

As of August 1, 2013, there were 88,968,433 shares of the Registrant's Common Stock outstanding, excluding 14.9 million shares owned by subsidiaries.

---

G. Deferred Policy Acquisition Costs	

---

**A. Accounting Policies**

**Basis of Presentation** The accompanying consolidated financial statements for American Financial Group, Inc. ("AFG") and its subsidiaries are unaudited; however, management believes that all adjustments (consisting only of normal recurring accruals unless otherwise disclosed herein) necessary for fair presentation have been made. The results of operations for interim periods are not necessarily indicative of results to be expected for the year. The financial statements have been prepared in accordance with the instructions to Form 10-Q and, therefore, do not include all information and footnotes necessary to be in conformity with U.S. generally accepted accounting principles.

Certain reclassifications have been made to prior periods to conform to the current year's presentation, primarily the reclassification of investment expenses and real estate income and expenses to net investment income. All significant intercompany balances and transactions have been eliminated. The results of operations of companies since their formation or acquisition are included in the consolidated financial statements. Events or transactions occurring subsequent to June 30, 2013, and prior to the filing date of this Form 10-Q, have been evaluated for potential recognition or disclosure herein.

The preparation of the financial statements requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Changes in circumstances could cause actual results to differ materially from those estimates.

**Accounting Standards Adopted in 2013** Effective January 1, 2013, AFG prospectively adopted Accounting Standards Update ("ASU") 2013-02, which requires companies to disclose, in a single location within the financial statements or footnotes, reclassifications out of accumulated other comprehensive income ("AOCI") separately for each component of other comprehensive income. For significant reclassifications, the disclosure is required to include the respective line items in net earnings affected by the reclassification. Disclosures required by the guidance are included in *Note K — "Shareholders' Equity."* This new disclosure requirement had no impact on AFG's results of operations or financial position.

**Fair Value Measurements** Accounting standards define fair value as the price that would be received to sell an asset or paid to transfer a liability (an exit price) in an orderly transaction between market participants on the measurement date. The standards establish a hierarchy of valuation techniques based on whether the assumptions that market participants would use in pricing the asset or liability ("inputs") are observable or unobservable. Observable inputs reflect market data obtained from independent sources, while unobservable inputs reflect AFG's assumptions about the assumptions market participants would use in pricing the asset or liability. AFG did not have any significant nonrecurring fair value measurements of nonfinancial assets and liabilities in the first six months of 2013 or 2012.

**Investments** Fixed maturity and equity securities classified as "available for sale" are reported at fair value with unrealized gains and losses included in AOCI in AFG's Balance Sheet. Fixed maturity and equity securities classified as "trading" are reported at fair value with changes in unrealized holding gains or losses during the period included in investment income. Mortgage and policy loans are carried primarily at the aggregate unpaid balance.

Premiums and discounts on fixed maturity securities are amortized using the interest method; mortgage-backed securities ("MBS") are amortized over a period based on estimated future principal payments, including prepayments. Prepayment assumptions are reviewed periodically and adjusted to reflect actual prepayments and changes in expectations.

## NOTES TO CONSOLIDATED FINANCIAL STATEMENTS — CONTINUED

Gains or losses on securities are determined on the specific identification basis. When a decline in the value of a specific investment is considered to be other-than-temporary at the balance sheet date, a provision for impairment is charged to earnings (included in realized gains (losses) on securities) and the cost basis of that investment is reduced. If management can assert that it does not intend to sell an impaired fixed maturity security and it is not more likely than not that it will have to sell the security before recovery of its amortized cost basis, then the other-than-temporary impairment is separated into two components: 1) the amount related to credit losses (recorded in earnings) and 2) the amount related to all other factors (recorded in other comprehensive income). The credit-related portion of an other-than-temporary impairment is measured by comparing a security's amortized cost to the present value of its current expected cash flows discounted at its effective yield prior to the impairment charge. Both components are shown in the Statement of Earnings. If management intends to sell an impaired security, or it is more likely than not that it will be required to sell the security before recovery, an impairment charge to earnings is recorded to reduce the amortized cost of that security to fair value.

**Derivatives** Derivatives included in AFG's Balance Sheet are recorded at fair value and consist primarily of (i) components of certain fixed maturity securities (primarily interest-only MBS) and (ii) the equity-based component of certain annuity products (included in annuity benefits accumulated) and related call options (included in other investments) designed to be consistent with the characteristics of the liabilities and used to mitigate the risk embedded in those annuity products. Changes in the fair value of derivatives are included in earnings.

**Goodwill** Goodwill represents the excess of cost of subsidiaries over AFG's equity in their underlying net assets. Goodwill is not amortized, but is subject to an impairment test at least annually. An entity is not required to complete the quantitative annual goodwill impairment test on a reporting unit if the entity elects to perform a qualitative analysis and determines that it is more likely than not that the reporting unit's fair value exceeds its carrying amount.

**Reinsurance** Amounts recoverable from reinsurers are estimated in a manner consistent with the claim liability associated with the reinsured policies. AFG's property and casualty insurance subsidiaries report as assets (a) the estimated reinsurance recoverable on paid and unpaid losses, including an estimate for losses incurred but not reported, and (b) amounts paid or due to reinsurers applicable to the unexpired terms of policies in force. Payable to reinsurers includes ceded premiums due to reinsurers as well as ceded premiums retained by AFG's property and casualty insurance subsidiaries under contracts to fund ceded losses as they become due. AFG's insurance subsidiaries also assume reinsurance from other companies. Earnings on reinsurance assumed is recognized based on information received from ceding companies.

A subsidiary cedes life insurance policies to a third party on a funds withheld basis whereby the subsidiary retains the assets (securities) associated with the reinsurance contract. Interest is credited to the reinsurer based on the actual investment performance of the retained assets. This reinsurance contract is considered to contain an embedded derivative (that must be adjusted to fair value) because the yield on the payable is based on a specific block of the ceding company's assets, rather than the overall creditworthiness of the ceding company. AFG determined that changes in the fair value of the underlying portfolio of fixed maturity securities is an appropriate measure of the value of the embedded derivative. The securities related to this contract are classified as "trading." The adjustment to fair value on the embedded derivative offsets the investment income recorded on the adjustment to fair value of the related trading portfolio.

**Deferred Policy Acquisition Costs ("DPAC")** Policy acquisition costs (principally commissions, premium taxes and certain underwriting and policy issuance costs) directly related to the successful acquisition or renewal of an insurance contract are deferred. DPAC also includes capitalized costs associated with sales inducements offered to fixed annuity policyholders such as enhanced interest rates and premium and persistency bonuses.

For the property and casualty companies, DPAC is limited based upon recoverability without any consideration for anticipated investment income and is charged against income ratably over the terms of the related policies. A premium deficiency is recognized if the sum of expected claims costs, claims adjustment expenses and unamortized acquisition costs exceed the related unearned premiums. A premium deficiency is first recognized by charging any unamortized acquisition costs to expense to the extent required to eliminate the deficiency. If the premium deficiency is greater than unamortized acquisition costs, a liability is accrued for the excess deficiency and reported with unpaid losses and loss adjustment expenses.

DPAC related to annuities is deferred to the extent deemed recoverable and amortized, with interest, in relation to the present value of actual and expected gross profits on the policies. Expected gross profits consist principally of estimated future investment margin (estimated future net investment income less interest credited on policyholder funds) and surrender, mortality, and other life and annuity policy charges, less death, annuitization and guaranteed withdrawal benefits in excess of account balances and estimated future policy administration expenses. To the extent that realized gains and losses result in

## NOTES TO CONSOLIDATED FINANCIAL STATEMENTS — CONTINUED

adjustments to the amortization of DPAC related to annuities, such adjustments are reflected as components of realized gains (losses) on securities.

DPAC related to traditional life and health insurance is amortized over the expected premium paying period of the related policies, in proportion to the ratio of annual premium revenues to total anticipated premium revenues. See *Note A, "Accounting Policies — Life, Accident and Health Reserves"* for details on the impact of loss recognition on the accounting for traditional life and health insurance contracts.

DPAC includes the present value of future profits on business in force of annuity and life, accident and health insurance companies acquired ("PVFP"). PVFP represents the portion of the costs to acquire companies that is allocated to the value of the right to receive future cash flows from insurance contracts existing at the date of acquisition. PVFP is amortized with interest in relation to expected gross profits of the acquired policies for annuities and universal life products and in relation to the premium paying period for traditional life and health insurance products.

DPAC and certain other balance sheet amounts related to annuity, long-term care and life businesses are also adjusted, net of tax, for the change in expense that would have been recorded if the unrealized gains (losses) from securities had actually been realized. These adjustments are included in unrealized gains (losses) on marketable securities, a component of AOCI in AFG's Balance Sheet.

**Managed Investment Entities** A company is considered the primary beneficiary of, and therefore must consolidate, a variable interest entity ("VIE") based primarily on its ability to direct the activities of the VIE that most significantly impact that entity's economic performance and the obligation to absorb losses of, or receive benefits from, the entity that could potentially be significant to the VIE.

AFG manages, and has investments in, collateralized loan obligations ("CLOs") that are VIEs (see *Note H — "Managed Investment Entities"*). Both the management fees (payment of which is subordinate to other obligations of the CLOs) and the investments in the CLOs are considered variable interests. AFG has determined that it is the primary beneficiary of the CLOs because (i) its role as asset manager gives it the power to direct the activities that most significantly impact the economic performance of the CLOs and (ii) it has exposure to CLO losses (through its investments in the CLO debt tranches) and the right to receive benefits (through its subordinated management fees and returns on its investments), both of which could potentially be significant to the CLOs.

Because AFG has no right to use the CLO assets and no obligation to pay the CLO liabilities, the assets and liabilities of the CLOs are shown separately in AFG's Balance Sheet (at fair value). AFG has elected the fair value option for reporting on the CLO assets and liabilities to improve the transparency of financial reporting related to the CLOs. The excess of fair value of the CLOs' assets over the fair value of the liabilities is recorded in AFG's Balance Sheet as appropriated retained earnings — managed investment entities, representing amounts that ultimately will inure to the benefit of the CLO debt holders.

The net gain or loss from accounting for the CLO assets and liabilities at fair value is separately presented in AFG's Statement of Earnings. CLO earnings attributable to AFG's shareholders represent the change in fair value of AFG's investments in the CLOs (including distributions) and management fees earned. All other CLO earnings (losses) are not attributable to AFG's shareholders and will ultimately inure to the benefit of the CLO debt holders. As a result, such CLO earnings (losses) are included in net earnings (loss) attributable to noncontrolling interests in AFG's Statement of Earnings and in appropriated retained earnings — managed investment entities in the Balance Sheet. As the CLOs approach maturity (2016 to 2025), it is expected that losses attributable to noncontrolling interests will reduce appropriated retained earnings towards zero as the fair values of the assets and liabilities converge and the CLO assets are used to pay the CLO debt.

At June 30, 2013, assets and liabilities of managed investment entities included \$96 million in assets and \$66 million in liabilities of a temporary warehousing entity that was established in connection with the formation of a new CLO that is expected to close in the second half of 2013. Upon closing, all warehoused assets are expected to be transferred to the new CLO and the liabilities will be repaid. At December 31, 2012, assets and liabilities of managed investment entities included \$107 million in assets and \$87 million in liabilities of a temporary warehousing entity that was established in connection with the formation of a new CLO. All warehoused assets were transferred to that new CLO and the liabilities were repaid when the CLO formation was completed and the CLO issued securities in April 2013.

**Unpaid Losses and Loss Adjustment Expenses** The net liabilities stated for unpaid claims and for expenses of investigation and adjustment of unpaid claims are based upon (a) the accumulation of case estimates for losses reported prior to the close of

## NOTES TO CONSOLIDATED FINANCIAL STATEMENTS — CONTINUED

the accounting period on direct business written; (b) estimates received from ceding reinsurers and insurance pools and associations; (c) estimates of unreported losses (including possible development on known claims) based on past experience; (d) estimates based on experience of expenses for investigating and adjusting claims; and (e) the current state of the law and coverage litigation. Establishing reserves for asbestos, environmental and other mass tort claims involves considerably more judgment than other types of claims due to, among other things, inconsistent court decisions, an increase in bankruptcy filings as a result of asbestos-related liabilities, novel theories of coverage, and judicial interpretations that often expand theories of recovery and broaden the scope of coverage.

Loss reserve liabilities are subject to the impact of changes in claim amounts and frequency and other factors. Changes in estimates of the liabilities for losses and loss adjustment expenses are reflected in the Statement of Earnings in the period in which determined. Despite the variability inherent in such estimates, management believes that the liabilities for unpaid losses and loss adjustment expenses are adequate.

**Annuity Benefits Accumulated** Annuity receipts and benefit payments are recorded as increases or decreases in annuity benefits accumulated rather than as revenue and expense. Increases in this liability for interest credited are charged to expense and decreases for policy charges are credited to other income.

For certain products, annuity benefits accumulated also includes reserves for accrued persistency and premium bonuses, guaranteed withdrawals and excess benefits expected to be paid on future deaths and annuitizations (“EDAR”). The liability for EDAR is accrued for and modified using assumptions consistent with those used in determining DPAC and DPAC amortization, except that amounts are determined in relation to the present value of total expected assessments. Total expected assessments consist principally of estimated future investment margin, surrender, mortality, and other life and annuity policy charges, and unearned revenues once they are recognized as income.

Annuity benefits accumulated also includes amounts advanced from the Federal Home Loan Bank of Cincinnati.

**Unearned Revenue** Certain upfront policy charges on annuities are deferred as unearned revenue (included in other liabilities) and recognized in net earnings using the same assumptions and estimated gross profits used to amortize DPAC.

**Life, Accident and Health Reserves** Liabilities for future policy benefits under traditional life, accident and health policies are computed using the net level premium method. Computations are based on the original projections of investment yields, mortality, morbidity and surrenders and include provisions for unfavorable deviations unless a loss recognition event (premium deficiency) occurs. Claim reserves and liabilities established for accident and health claims are modified as necessary to reflect actual experience and developing trends.

For long-duration contracts (such as traditional life and long-term care policies), loss recognition occurs when, based on current expectations as of the measurement date, existing contract liabilities plus the present value of future premiums (including reasonably expected rate increases) are not expected to cover the present value of future claims payments and related settlement and maintenance costs (excluding overhead) as well as unamortized acquisition costs. If a block of business is determined to be in loss recognition, a charge is recorded in earnings in an amount equal to the excess of the present value of expected future claims costs and unamortized acquisition costs over existing reserves plus the present value of expected future premiums (with no provision for adverse deviation). The charge is recorded first to reduce unamortized acquisition costs and then as an additional reserve (if unamortized acquisition costs have been reduced to zero).

In addition, reserves for traditional life and long-term care policies are subject to adjustment for loss recognition charges that would have been recorded if the unrealized gains from securities had actually been realized. This adjustment is included in unrealized gains (losses) on marketable securities, a component of AOCI in AFG’s Balance Sheet.

**Variable Annuity Assets and Liabilities** Separate accounts related to variable annuities represent the fair value of deposits invested in underlying investment funds on which AFG earns a fee. Investment funds are selected and may be changed only by the policyholder, who retains all investment risk.

AFG’s variable annuity contracts contain a guaranteed minimum death benefit (“GMDB”) to be paid if the policyholder dies before the annuity payout period commences. In periods of declining equity markets, the GMDB may exceed the value of the policyholder’s account. A GMDB liability is established for future excess death benefits using assumptions together with a range of reasonably possible scenarios for investment fund performance that are consistent with DPAC capitalization and amortization assumptions.

## NOTES TO CONSOLIDATED FINANCIAL STATEMENTS — CONTINUED

**Premium Recognition** Property and casualty premiums are earned generally over the terms of the policies on a pro rata basis. Unearned premiums represent that portion of premiums written which is applicable to the unexpired terms of policies in force. On reinsurance assumed from other insurance companies or written through various underwriting organizations, unearned premiums are based on information received from such companies and organizations. For traditional life, accident and health products, premiums are recognized as revenue when legally collectible from policyholders. For interest-sensitive life and universal life products, premiums are recorded in a policyholder account, which is reflected as a liability. Revenue is recognized as amounts are assessed against the policyholder account for mortality coverage and contract expenses.

**Noncontrolling Interests** For Balance Sheet purposes, noncontrolling interests represents the interests of shareholders other than AFG in consolidated entities. In the Statement of Earnings, net earnings and losses attributable to noncontrolling interests represents such shareholders' interest in the earnings and losses of those entities.

**Income Taxes** Deferred income taxes are calculated using the liability method. Under this method, deferred income tax assets and liabilities are determined based on differences between financial reporting and tax bases and are measured using enacted tax rates. A valuation allowance is established to reduce total deferred tax assets to an amount that will more likely than not be realized.

AFG recognizes the tax benefits of uncertain tax positions only when the position is more likely than not to be sustained under examination by the appropriate taxing authority. Interest and penalties on AFG's reserve for uncertain tax positions are recognized as a component of tax expense.

**Stock-Based Compensation** All share-based grants are recognized as compensation expense on a straight-line basis over their vesting periods based on their calculated fair value at the date of grant. AFG uses the Black-Scholes pricing model to measure the fair value of employee stock options. See *Note K — "Shareholders' Equity"* for further information.

**Benefit Plans** AFG provides retirement benefits to qualified employees of participating companies through the AFG 401(k) Retirement and Savings Plan, a defined contribution plan. AFG makes all contributions to the retirement fund portion of the plan and matches a percentage of employee contributions to the savings fund. Company contributions are expensed in the year for which they are declared. AFG and many of its subsidiaries provide health care and life insurance benefits to eligible retirees. AFG also provides postemployment benefits to former or inactive employees (primarily those on disability) who were not deemed retired under other company plans. The projected future cost of providing these benefits is expensed over the period employees earn such benefits.

**Earnings Per Share** Although basic earnings per share only considers shares of common stock outstanding during the period, the calculation of diluted earnings per share includes adjustments to weighted average common shares related to stock-based compensation plans: second quarter of 2013 and 2012 — 1.9 million and 1.6 million; first six months of 2013 and 2012 — 1.8 million and 1.7 million, respectively.

AFG's weighted average diluted shares outstanding excludes the following anti-dilutive potential common shares related to stock compensation plans: second quarter of 2013 and 2012 — 1.3 million and 2.1 million; first six months of 2013 and 2012 — 1.4 million and 1.8 million, respectively. Adjustments to net earnings attributable to shareholders in the calculation of diluted earnings per share were nominal in the 2013 and 2012 periods.

**Statement of Cash Flows** For cash flow purposes, "investing activities" are defined as making and collecting loans and acquiring and disposing of debt or equity instruments and property and equipment. "Financing activities" include obtaining resources from owners and providing them with a return on their investments, borrowing money and repaying amounts borrowed. Annuity receipts, benefits and withdrawals are also reflected as financing activities. All other activities are considered "operating." Short-term investments having original maturities of three months or less when purchased are considered to be cash equivalents for purposes of the financial statements.

## NOTES TO CONSOLIDATED FINANCIAL STATEMENTS — CONTINUED

**B. Sale of Subsidiaries**

**Medicare Supplement and Critical Illness Segment** In August 2012, AFG completed the sale of its Medicare supplement and critical illness businesses, which included Loyal American Life Insurance Company and four other insurance companies, to Cigna Corporation for \$326 million in cash resulting in a pretax gain of \$170 million (including post-closing adjustments). Since the transaction includes the ongoing cessations of certain business to Cigna, the operations sold are not reported as discontinued operations. Summarized Statement of Earnings information for the Medicare supplement and critical illness segment for the second quarter and first six months of 2012 is shown below (in millions):

	Three months ended June 30, 2012	Six months ended June 30, 2012
Total revenues	\$ 79	\$ 159
Total costs and expenses	67	141
Earnings before income taxes	\$ 12	\$ 18

**C. Segments of Operations**

AFG manages its business as five segments: (i) Property and casualty insurance, (ii) Annuity, (iii) Run-off long-term care and life, (iv) Medicare supplement and critical illness (sold in August 2012) and (v) Other, which includes holding company costs, and the operations attributable to the noncontrolling interests of the managed investment entities.

AFG reports its property and casualty insurance business in the following Specialty sub-segments: (i) Property and transportation, which includes physical damage and liability coverage for buses, trucks and recreational vehicles, inland and ocean marine, agricultural-related products and other property coverages, (ii) Specialty casualty, which includes primarily excess and surplus, general liability, executive liability, umbrella and excess liability, customized programs for small to mid-sized businesses and workers' compensation, and (iii) Specialty financial, which includes risk management insurance programs for leasing and financing institutions (including collateral and lender-placed mortgage property insurance), surety and fidelity products and trade credit insurance. AFG's annuity business markets traditional fixed and fixed-indexed annuities in the retail, financial institutions and education markets. AFG's reportable segments and their components were determined based primarily upon similar economic characteristics, products and services.

## NOTES TO CONSOLIDATED FINANCIAL STATEMENTS — CONTINUED

(a) Sold in August 2012.

(b) Includes a \$5 million charge in the second quarter of 2013 to cover expected assessments from state guaranty funds related to the insolvency and liquidation of an unaffiliated life insurance company.

(c) Includes holding company expenses and losses of managed investment entities attributable to noncontrolling interest of \$31 million and \$18 million for the second quarter and \$42 million and \$46 million for the first six months of 2013 and 2012, respectively.

## NOTES TO CONSOLIDATED FINANCIAL STATEMENTS — CONTINUED

**D. Fair Value Measurements**

Accounting standards for measuring fair value are based on inputs used in estimating fair value. The three levels of the hierarchy are as follows:

Level 1 — Quoted prices for identical assets or liabilities in active markets (markets in which transactions occur with sufficient frequency and volume to provide pricing information on an ongoing basis). AFG's Level 1 financial instruments consist primarily of publicly traded equity securities and highly liquid government bonds for which quoted market prices in active markets are available and short-term investments of managed investment entities.

Level 2 — Quoted prices for similar instruments in active markets; quoted prices for identical or similar assets or liabilities in inactive markets (markets in which there are few transactions, the prices are not current, price quotations vary substantially over time or among market makers, or in which little information is released publicly); and valuations based on other significant inputs that are observable in active markets. AFG's Level 2 financial instruments include separate account assets, corporate and municipal fixed maturity securities, mortgage-backed securities ("MBS") and investments of managed investment entities priced using observable inputs. Level 2 inputs include benchmark yields, reported trades, corroborated broker/dealer quotes, issuer spreads and benchmark securities. When non-binding broker quotes can be corroborated by comparison to similar securities priced using observable inputs, they are classified as Level 2.

Level 3 — Valuations derived from market valuation techniques generally consistent with those used to estimate the fair values of Level 2 financial instruments in which one or more significant inputs are unobservable or when the market for a security exhibits significantly less liquidity relative to markets supporting Level 2 fair value measurements. The unobservable inputs may include management's own assumptions about the assumptions market participants would use based on the best information available in the circumstances. AFG's Level 3 is comprised of financial instruments, including liabilities of managed investment entities, whose fair value is estimated based on non-binding broker quotes or internally developed using significant inputs not based on, or corroborated by, observable market information.

AFG's management is responsible for the valuation process and uses data from outside sources (including nationally recognized pricing services and broker/dealers) in establishing fair value. AFG's internal investment professionals are a group of approximately 20 analysts whose primary responsibility is to manage AFG's investment portfolio. These professionals monitor individual investments as well as overall industries and are active in the financial markets on a daily basis. The group is led by AFG's chief investment officer, who reports directly to one of AFG's Co-CEOs. Valuation techniques utilized by pricing services and prices obtained from external sources are reviewed by AFG's internal investment professionals who are familiar with the securities being priced and the markets in which they trade to ensure the fair value determination is representative of an exit price. To validate the appropriateness of the prices obtained, these investment managers consider widely published indices (as benchmarks), recent trades, changes in interest rates, general economic conditions and the credit quality of the specific issuers. In addition, the Company communicates directly with the pricing service regarding the methods and assumptions used in pricing, including verifying, on a test basis, the inputs used by the service to value specific securities.

## NOTES TO CONSOLIDATED FINANCIAL STATEMENTS — CONTINUED

Assets and liabilities measured and carried at fair value in the financial statements are summarized below (in millions):

	Level 1	Level 2	Level 3	Total
<b>June 30, 2013</b>

Total liabilities accounted for at fair value	\$ 147	\$ 17	\$ 3,210	\$ 3,374

(a) Variable annuity liabilities equal the fair value of variable annuity assets.

## NOTES TO CONSOLIDATED FINANCIAL STATEMENTS — CONTINUED

During the first six months of 2013 (all in the second quarter), five preferred stocks with an aggregate fair value of \$11 million were transferred from Level 2 to Level 1 due to increases in trade frequency, resulting in trade data sufficient to warrant classification in Level 1. During the first six months of 2013, there were no transfers from Level 1 to Level 2. During the first six months of 2012 (all in the first quarter), six preferred stocks with an aggregate fair value of \$35 million were transferred from Level 1 to Level 2 due to decreases in trade frequency, resulting in lack of available trade data sufficient to warrant classification in Level 1. During the first six months 2012, there were no transfers from Level 2 to Level 1. Approximately 3% of the total assets carried at fair value on June 30, 2013, were Level 3 assets. Approximately 82% of the Level 3 assets were priced using non-binding broker quotes, for which there is a lack of transparency as to the inputs used to determine fair value. Details as to the quantitative inputs are neither provided by the brokers nor otherwise reasonably obtainable by AFG. Since internally developed Level 3 asset fair values represent less than one-half of 1% of the total assets measured at fair value and less than 3% of AFG's shareholders' equity, changes in unobservable inputs used to determine internally developed fair values would not have a material impact on AFG's financial position.

The fair values of the liabilities of managed investment entities were determined using primarily non-binding broker quotes, which were reviewed by AFG's investment professionals. AFG's investment professionals are familiar with the cash flow models used by the brokers to determine the fair value of these liabilities and review the broker quotes based on their knowledge of the CLO market and the market for the underlying assets. Their review includes consideration of expected reinvestment, default and recovery rates on the assets supporting the CLO liabilities, as well as surveying general CLO liability fair values and analysis provided by third parties.

The only significant Level 3 assets or liabilities carried at fair value in the financial statements that were not measured using broker quotes are the derivatives embedded in AFG's fixed-indexed annuity liabilities, which are measured using a discounted cash flow approach and had a fair value of \$577 million at June 30, 2013. The following table presents information about the unobservable inputs used by management in determining fair value of these embedded derivatives. See *Note F — "Derivatives."*

Unobservable Input	Range
Adjustment for insurance subsidiary's credit risk	0.50% – 2.00% over the risk free rate
Risk margin for uncertainty in cash flows	0.4% reduction in the discount rate
Surrenders	4% – 20% of indexed account value
Partial surrenders	2% – 5% of indexed account value
Annuity payments	1% – 2% of indexed account value
Deaths	1% – 2.5% of indexed account value
Budgeted option costs	2.5% – 4.0% of indexed account value

The range of adjustments for insurance subsidiary's credit risk reflects credit spread variations across the yield curve. The range of projected surrender rates reflects the specific surrender charges and other features of AFG's individual fixed-indexed annuity products with an expected range of 5% to 12% in the majority of future calendar years (4% — 20% over all periods). Increasing the budgeted option cost or risk margin for uncertainty in cash flows assumptions in the table above would increase the fair value of the fixed-indexed annuity embedded derivatives, while increasing any of the other unobservable inputs in the table above would decrease the fair value of the embedded derivatives.

**AMERICAN FINANCIAL GROUP, INC. 10-Q**
**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS — CONTINUED**

Changes in balances of Level 3 financial assets and liabilities carried at fair value during the second quarter and first six months of 2013 and 2012 are presented below (in millions). The transfers into and out of Level 3 were due to changes in the availability of market observable inputs. All transfers are reflected in the table at fair value as of the end of the reporting period.

(\*) Excludes life contingent annuities in the payout phase.

The carrying amount of cash and cash equivalents approximates fair value. Fair values for mortgage loans are estimated by discounting the future contractual cash flows using the current rates at which similar loans would be made to borrowers with similar credit ratings. The fair value of policy loans is estimated to approximate carrying value; policy loans have no defined maturity dates and are inseparable from insurance contracts. The fair value of annuity benefits was estimated based on expected cash flows discounted using forward interest rates adjusted for the Company's credit risk and includes the impact of maintenance expenses and capital costs. Fair values of long-term debt are based primarily on quoted market prices.

**E. Investments**

Available for sale fixed maturities and equity securities at June 30, 2013, and December 31, 2012, consisted of the following (in millions):

	June 30, 2013				December 31, 2012

## NOTES TO CONSOLIDATED FINANCIAL STATEMENTS — CONTINUED

The non-credit related portion of other-than-temporary impairment charges is included in other comprehensive income. Cumulative non-credit charges taken for securities still owned at June 30, 2013 and December 31, 2012 were \$227 million and related to residential MBS.

The following tables show gross unrealized losses (in millions) on fixed maturities and equity securities by investment category and length of time that individual securities have been in a continuous unrealized loss position at June 30, 2013 and December 31, 2012.

Perpetual preferred stocks	<u>\$ —</u>	<u>\$ 7</u>	<u>100%</u>	<u>\$ (1)</u>	<u>\$ 25</u>	<u>96%</u>

At June 30, 2013, the gross unrealized losses on fixed maturities of \$215 million relate to approximately 1,000 securities. Investment grade securities (as determined by nationally recognized rating agencies) represented approximately 79% of the gross unrealized loss and 85% of the fair value.

AFG analyzes its MBS securities for other-than-temporary impairment each quarter based upon expected future cash flows. Management estimates expected future cash flows based upon its knowledge of the MBS market, cash flow projections (which reflect loan to collateral values, subordination, vintage and geographic concentration) received from independent sources, implied cash flows inherent in security ratings and analysis of historical payment data. In the first six months of 2013, AFG did not record any other-than-temporary impairment charges related to its residential MBS.

Management believes AFG will recover its cost basis in the securities with unrealized losses and that AFG has the ability to hold the securities until they recover in value and had no intent to sell them at June 30, 2013.

## NOTES TO CONSOLIDATED FINANCIAL STATEMENTS — CONTINUED

A progression of the credit portion of other-than-temporary impairments on fixed maturity securities for which the non-credit portion of an impairment has been recognized in other comprehensive income is shown below (in millions).

	2013	2012
Balance at March 31	\$ 191	\$ 190
Additional credit impairments on:		
Previously impaired securities	—	1
Securities without prior impairments	—	—
Reductions — disposals	—	—
Balance at June 30	<u>\$ 191</u>	<u>\$ 191</u>
Balance at January 1	\$ 192	\$ 187
Additional credit impairments on:		
Previously impaired securities	—	4
Securities without prior impairments	—	—
Reductions — disposals	(1)	—
Balance at June 30	<u>\$ 191</u>	<u>\$ 191</u>

The table below sets forth the scheduled maturities of available for sale fixed maturities as of June 30, 2013 (in millions). Securities with sinking funds are reported at average maturity. Actual maturities may differ from contractual maturities because certain securities may be called or prepaid by the issuers.

Maturity	Amortized	Fair Value	
	Cost	Amount	%
One year or less	\$ 1,077	\$ 1,101	4%
After one year through five years	4,674	5,014	20%
After five years through ten years	6,588	6,915	28%
After ten years	2,728	2,772	11%
	<u>15,067</u>	<u>15,802</u>	<u>63%</u>
ABS (average life of approximately 4 1/2 years)	2,205	2,234	9%
MBS (average life of approximately 3 1/2 years)	6,468	6,999	28%
Total	<u>\$ 23,740</u>	<u>\$ 25,035</u>	<u>100%</u>

Certain risks are inherent in connection with fixed maturity securities, including loss upon default, price volatility in reaction to changes in interest rates, and general market factors and risks associated with reinvestment of proceeds due to prepayments or redemptions in a period of declining interest rates.

There were no investments in individual issuers that exceeded 10% of Shareholders' Equity at June 30, 2013 or December 31, 2012.

## NOTES TO CONSOLIDATED FINANCIAL STATEMENTS — CONTINUED

**Net Unrealized Gain on Marketable Securities** In addition to adjusting equity securities and fixed maturity securities classified as “available for sale” to fair value, GAAP requires that deferred policy acquisition costs and certain other balance sheet amounts related to annuity, long-term care and life businesses be adjusted to the extent that unrealized gains and losses from securities would result in adjustments to those balances had the unrealized gains or losses actually been realized. The following table shows (in millions) the components of the net unrealized gain on securities that is included in AOCI in AFG’s Balance Sheet.

	Pretax	Deferred Tax and Amounts Attributable to Noncontrolling Interests	Net
<b>June 30, 2013</b>			
Unrealized gain on:			
Fixed maturities	\$ 1,295	\$ (461)	\$ 834
Equity securities	215	(77)	138
Deferred policy acquisition costs	(438)	153	(285)
Annuity benefits accumulated	(87)	31	(56)
Life, accident and health reserves	(81)	28	(53)
Other liabilities	33	(11)	22
	<u>\$ 937</u>	<u>\$ (337)</u>	<u>\$ 600</u>
<b>December 31, 2012</b>			
Unrealized gain on:			
Fixed maturities	\$ 2,035	\$ (726)	\$ 1,309
Equity securities	161	(57)	104
Deferred policy acquisition costs	(710)	247	(463)
Annuity benefits accumulated	(136)	48	(88)
Life, accident and health reserves	(117)	41	(76)
Other liabilities	57	(20)	37
	<u>\$ 1,290</u>	<u>\$ (467)</u>	<u>\$ 823</u>

## NOTES TO CONSOLIDATED FINANCIAL STATEMENTS — CONTINUED

Realized gains (losses) and changes in unrealized appreciation (depreciation) related to fixed maturity and equity security investments are summarized as follows (in millions):

	Fixed Maturities	Equity Securities	Mortgage Loans and Other Investments	Other (a)	Tax Effects	Noncontrolling Interests	Total
<b>Quarter ended June 30, 2013</b>							
Realized before impairments	\$ 8	\$ 33	\$ 1	\$ —	\$ (15)	\$ —	\$ 27
Realized — impairments	—	—	(1)	—	—	—	(1)
Change in unrealized	(725)	(13)	—	319	147	7	(265)
<b>Quarter ended June 30, 2012</b>							
Realized before impairments	\$ 6	\$ 21	\$ (4)	\$ —	\$ (8)	\$ (1)	\$ 14
Realized — impairments	—	(8)	—	1	3	—	(4)
Change in unrealized	231	(30)	—	(100)	(35)	—	66
<b>Six months ended June 30, 2013</b>							
Realized before impairments	\$ 27	\$ 71	\$ 2	\$ (1)	\$ (35)	\$ (1)	\$ 63
Realized — impairments	—	—	(1)	—	—	—	(1)
Change in unrealized	(740)	54	—	333	124	6	(223)

Realized — impairments	(4)	(10)	—	3	4	—	(7)
Change in unrealized	363	40	—	(102)	(105)	(3)	193

(a) Primarily adjustments to deferred policy acquisition costs and reserves related to annuities and long-term care business.

Realized gains (losses) on securities includes net losses of \$3 million in the second quarter and \$1 million in the first six months of 2013 compared to net losses of \$1 million in the second quarter and net gains of \$3 million in the first six months of 2012 from the mark-to-market of certain MBS, primarily interest-only securities with interest rates that float inversely with short-term rates. Gross realized gains and losses (excluding impairment writedowns and mark-to-market of derivatives) on available for sale fixed maturity and equity security investment transactions included in the Statement of Cash Flows consisted of the following (in millions):

	Six months ended June 30,	
	2013	2012
<b>Fixed maturities:</b>		
Gross gains	\$ 28	\$ 18
Gross losses	(1)	(1)
<b>Equity securities:</b>		
Gross gains	71	57
Gross losses	—	(1)

## NOTES TO CONSOLIDATED FINANCIAL STATEMENTS — CONTINUED

**F. Derivatives**

As discussed under “*Derivatives*” in *Note A — “Accounting Policies,”* AFG uses derivatives in certain areas of its operations. AFG’s derivatives do not qualify for hedge accounting under GAAP; changes in the fair value of derivatives are included in earnings.

The following derivatives are included in AFG’s Balance Sheet at fair value (in millions):

Derivative	Balance Sheet Line	June 30, 2013		December 31, 2012	
		Asset	Liability	Asset	Liability
MBS with embedded derivatives	Fixed maturities	\$ 130	\$ —	\$ 110	\$ —
Public company warrants	Equity securities	15	—	—	—
Interest rate swaptions	Other investments	2	—	1	—
Fixed-indexed annuities (embedded derivative)	Annuity benefits accumulated	—	577	—	465
Equity index call options	Other investments	185	—	132	—
Reinsurance contracts (embedded derivative)	Other liabilities	—	12	—	17
		<u>\$ 332</u>	<u>\$ 589</u>	<u>\$ 243</u>	<u>\$ 482</u>

The MBS with embedded derivatives consist primarily of interest-only MBS with interest rates that float inversely with short-term rates. AFG records the entire change in the fair value of these securities in earnings. These investments are part of AFG’s overall investment strategy and represent a small component of AFG’s overall investment portfolio.

Warrants to purchase shares of publicly traded companies, which represent a small component of AFG’s overall investment portfolio, are considered to be derivatives that must be marked to market through earnings.

AFG has \$700 million notional amount of pay-fixed interest rate swaptions (options to enter into pay-fixed/receive floating interest rate swaps at future dates expiring between 2013 and 2015) outstanding at June 30, 2013 which are used to mitigate interest rate risk in its annuity operations. AFG paid \$20 million to purchase these swaptions, which represents its maximum potential economic loss over the life of the contracts.

AFG’s fixed-indexed annuities, which represented approximately 40% of annuity benefits accumulated at June 30, 2013, provide policyholders with a crediting rate tied, in part, to the performance of an existing stock market index. AFG attempts to mitigate the risk in the index-based component of these products through the purchase of call options on the appropriate index. AFG’s strategy is designed so that an increase in the liabilities, due to an increase in the market index, will be generally offset by unrealized and realized gains on the call options purchased by AFG. Both the index-based component of the annuities and the related call options are considered derivatives. As shown in the table below, the mark-to-market on the embedded derivative and call options both resulted in gains in the second quarter of 2013. The \$16 million increase in fair value of call options reflects the increase in the stock market during the quarter. However, the offsetting unfavorable impact of stock market performance on the embedded derivative was outweighed by the favorable impact of higher market interest rates resulting in a \$3 million overall gain from the mark-to-market of the embedded derivative. In the second quarter of 2012, poor stock market performance resulted in a \$21 million loss from the mark-to-market of the call options. In that period, the offsetting favorable impact of poor stock market performance on the embedded derivative was mitigated by the negative impact of lower market interest rates resulting in a \$3 million overall gain from the mark-to-market of the embedded derivative.

As discussed under “*Reinsurance*” in *Note A*, certain reinsurance contracts are considered to contain embedded derivatives.

**AMERICAN FINANCIAL GROUP, INC. 10-Q**  
**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS — CONTINUED**

The following table summarizes the gain (loss) included in the Statement of Earnings for changes in the fair value of these derivatives for the second quarter and first six months of 2013 and 2012 (in millions):

Derivative	Statement of Earnings Line	Three months ended June 30,		Six months ended June 30,	
		2013	2012	2013	2012
MBS with embedded derivatives	Realized gains	\$ (3)	\$ (1)	\$ (1)	\$ 3
Public company warrants	Realized gains	(1)	—	1	—

Balance at June 30, 2012	\$ 198	\$ 971	\$ 184	\$ 135	\$ (642)	\$ 648	\$ 846

(\*) Includes AFG's run-off long-term care and life segment and Medicare supplement and critical illness segment (sold in August 2012).

The PVFP amounts in the table above are net of \$191 million and \$184 million of accumulated amortization at June 30, 2013 and December 31, 2012, respectively.

## NOTES TO CONSOLIDATED FINANCIAL STATEMENTS — CONTINUED

**H. Managed Investment Entities**

AFG is the investment manager and its subsidiaries have investments ranging from 7.5% to 51.2% of the most subordinate debt tranche of ten collateralized loan obligation entities or “CLOs,” which are considered variable interest entities. AFG’s subsidiaries also own portions of the senior debt tranches of certain of these CLOs. Upon formation between 2004 and 2013, these entities issued securities in various senior and subordinate classes and invested the proceeds primarily in secured bank loans, which serve as collateral for the debt securities issued by each particular CLO. None of the collateral was purchased from AFG. AFG’s investments in the subordinate debt tranches of these entities receive residual income from the CLOs only after the CLOs pay expenses (including management fees to AFG), and interest on and returns of capital to senior levels of debt securities. There are no contractual requirements for AFG to provide additional funding for these entities. AFG has not provided and does not intend to provide any financial support to these entities.

AFG’s maximum exposure to economic loss on its CLOs is limited to its investment in the CLOs, which had an aggregate fair value of \$336 million (including \$105 million invested in the most subordinate debt tranches) at June 30, 2013, and \$257 million at December 31, 2012.

In April 2013, AFG formed a new CLO, which issued \$417 million face amount of liabilities (including \$23 million face amount purchased by subsidiaries of AFG). During the first six months of 2013, AFG subsidiaries also purchased \$94 million face amount of senior debt tranches of existing CLOs for \$89 million.

The revenues and expenses of the CLOs are separately identified in AFG’s Statement of Earnings, after the elimination of management fees and earnings attributable to shareholders of AFG as measured by the change in the fair value of AFG’s investments in the CLOs. Selected financial information related to the CLOs is shown below (in millions):

	Three months ended June 30,		Six months ended June 30,	
	2013	2012	2013	2012
<b>Gains (losses) on change in fair value of assets/liabilities (a):</b>				
Assets	\$ (14)	\$ (2)	\$ 3	\$ 53
Liabilities	(14)	(19)	(39)	(103)
Management fees paid to AFG	4	4	8	8
<b>CLO earnings (losses) attributable to (b):</b>				
AFG shareholders	7	5	18	10
Noncontrolling interests	(31)	(18)	(42)	(46)

(a) Included in Revenues in AFG’s Statement of Earnings.

(b) Included in Earnings before income taxes in AFG’s Statement of Earnings.

The aggregate unpaid principal balance of the CLOs’ fixed maturity investments exceeded the fair value of the investments by \$26 million and \$29 million at June 30, 2013 and December 31, 2012. The aggregate unpaid principal balance of the CLOs’ debt exceeded its fair value by \$88 million and \$123 million at those dates. The CLO assets include \$1 million and \$5 million in loans (aggregate unpaid principal balance of \$2 million and \$12 million, respectively) at June 30, 2013 and December 31, 2012, for which the CLOs are not accruing interest because the loans are in default.

**I. Goodwill and Other Intangibles**

There were no changes in the goodwill balance of \$185 million during the first six months ended June 30, 2013. Included in other assets in AFG’s Balance Sheet is \$21 million at June 30, 2013 and \$28 million at December 31, 2012 in amortizable intangible assets related to property and casualty insurance acquisitions. These amounts are net of accumulated amortization of \$68 million and \$61 million, respectively. Amortization of these intangibles was \$3 million in each of the second quarters of 2013 and 2012 and \$7 million in each of the first six months of 2013 and 2012, respectively. Other assets also include \$8 million in non-amortizable intangible assets related to property and casualty insurance acquisitions.

**AMERICAN FINANCIAL GROUP, INC. 10-Q**  
**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS — CONTINUED**

**J. Long-Term Debt**

The carrying value of long-term debt consisted of the following (in millions):

	June 30, 2013	December 31, 2012
<b>Direct obligations of AFG:</b>		
9-7/8% Senior Notes due June 2019	\$ 350	\$ 350
6-3/8% Senior Notes due June 2042	230	230
5-3/4% Senior Notes due August 2042	125	125
7% Senior Notes due September 2050	132	132
Other	3	3
	<u>840</u>	<u>840</u>
<b>Subsidiaries:</b>		
Notes payable secured by real estate due 2013 through 2016	62	62
Secured borrowings (\$15 and \$16 guaranteed by AFG)	15	19
National Interstate bank credit facility	12	12
	<u>89</u>	<u>93</u>
<b>Payable to Subsidiary Trusts:</b>		
AAG Holding Variable Rate Subordinated Debentures due May 2033	20	20
	<u>\$ 949</u>	<u>\$ 953</u>

In June 2013, AFG called the \$20 million in AAG Holding Subordinated Debentures for redemption on August 15, 2013 at par value. Including this redemption, scheduled principal payments on debt for the balance of 2013 and the subsequent five years were as follows: 2013 — \$36 million; 2014 — \$2 million; 2015 — \$14 million; 2016 — \$45 million; 2017 — \$12 million and 2018 — none.

As shown below (in millions), the majority of AFG's long-term debt is unsecured obligations of the holding company and its subsidiaries:

	June 30, 2013	December 31, 2012
Unsecured obligations	\$ 872	\$ 872
Obligations secured by real estate	62	62
Other secured borrowings	15	19
	<u>\$ 949</u>	<u>\$ 953</u>

AFG can borrow up to \$500 million under its revolving credit facility which expires in December 2016. Amounts borrowed under this agreement bear interest at rates ranging from 1.00% to 1.875% (currently 1.375%) over LIBOR based on AFG's credit rating. No amounts were borrowed under this facility at June 30, 2013 or December 31, 2012.

National Interstate can borrow up to \$100 million under its unsecured credit agreement, which expires in November 2017. At June 30, 2013 there was \$12 million outstanding under this agreement, bearing interest at 1.34% (six-month LIBOR plus 0.875%).

**K. Shareholders' Equity**

AFG is authorized to issue 12.5 million shares of Voting Preferred Stock and 12.5 million shares of Nonvoting Preferred Stock, each without par value.

## NOTES TO CONSOLIDATED FINANCIAL STATEMENTS — CONTINUED

**Accumulated Other Comprehensive Income, Net of Tax (“AOCI”)** Comprehensive income is defined as all changes in Shareholders’ Equity except those arising from transactions with shareholders. Comprehensive income includes net earnings and other comprehensive income, which consists primarily of changes in net unrealized gains or losses on available for sale securities. The progression of the components of accumulated other comprehensive income follows (in millions):

	AOCI Beginning Balance	Other Comprehensive Income					AOCI Ending Balance
		Pretax	Tax	Net of tax	Attributable to noncontrolling interests	Attributable to shareholders	
<b>Quarter ended June 30, 2013</b>							
Net unrealized gains on securities:							
Unrealized holding gains (losses) on securities arising during the period		\$ (378)	\$ 133	\$ (245)	\$ 6	\$ (239)	
Reclassification adjustment for realized gains (losses) included in net earnings (a)		(41)	14	(27)	1	(26)	
Total net unrealized gains on securities (b)	\$ 865	(419)	147	(272)	7	(265)	\$ 600
Foreign currency translation adjustments	10	(5)	—	(5)	—	(5)	5
Pension and other postretirement plans adjustments	(6)	—	—	—	—	—	(6)
Total	\$ 869	\$ (424)	\$ 147	\$ (277)	\$ 7	\$ (270)	\$ 599

<b>Quarter ended June 30, 2012</b>							
Net unrealized gains on securities	\$ 705	\$ 101	\$ (35)	\$ 66	\$ —	\$ 66	\$ 771
Foreign currency translation adjustments	16	(8)	—	(8)	1	(7)	9
Pension and other postretirement plans adjustments	(7)	—	—	—	—	—	(7)
Total	\$ 714	\$ 93	\$ (35)	\$ 58	\$ 1	\$ 59	\$ 773

<b>Six months ended June 30, 2013</b>							
Net unrealized gains on securities:							
Unrealized holding gains (losses) on securities arising during the period		\$ (256)	\$ 90	\$ (166)	\$ 5	\$ (161)	
Reclassification adjustment for realized gains (losses) included in net earnings (a)		(97)	34	(63)	1	(62)	
Total net unrealized gains on securities (b)	\$ 823	(353)	124	(229)	6	(223)	\$ 600
Foreign currency translation adjustments	14	(9)	—	(9)	—	(9)	5
Pension and other postretirement plans adjustments	(6)	—	—	—	—	—	(6)
Total	\$ 831	\$ (362)	\$ 124	\$ (238)	\$ 6	\$ (232)	\$ 599

<b>Six months ended June 30, 2012</b>							
Net unrealized gains on securities	\$ 578	\$ 301	\$ (105)	\$ 196	\$ (3)	\$ 193	\$ 771
Foreign currency translation adjustments	10	(1)	—	(1)	—	(1)	9
Pension and other postretirement plans adjustments	(8)	1	—	1	—	1	(7)
Total	\$ 580	\$ 301	\$ (105)	\$ 196	\$ (3)	\$ 193	\$ 773

(a) The reclassification adjustment out of net unrealized gains on securities affected the following lines in AFG’s Consolidated Statement of Earnings:

<u>OCI component</u>	<u>Affected line in the Consolidated Statement of Earnings</u>
Pretax	Realized gains on securities
Tax	Provision for income taxes
Attributable to noncontrolling interests	Net earnings (loss) attributable to noncontrolling interests

(b) Includes net unrealized gains of \$42 million at June 30, 2013, \$45 million at March 31, 2013 and \$33 million at December 31, 2012 related to securities for which only the credit portion of an other-than-temporary impairment has been recorded in earnings.

## NOTES TO CONSOLIDATED FINANCIAL STATEMENTS — CONTINUED

**Stock Incentive Plans** Under AFG’s Stock Incentive Plans, employees of AFG and its subsidiaries are eligible to receive equity awards in the form of stock options, stock appreciation rights, restricted stock awards, restricted stock units and stock awards. In the first six months of 2013, AFG issued 249,411 shares of restricted Common Stock (fair value of \$44.01 per share) and granted stock options for 1.0 million shares of Common Stock (at an average exercise price of \$44.01) under the Stock Incentive Plan. In addition, AFG issued 88,602 shares of Common Stock (fair value of \$47.12 per share) in the first quarter of 2013 under the Equity Bonus Plan.

AFG uses the Black-Scholes option pricing model to calculate the fair value of its option grants. Expected volatility is based on historical volatility over a period equal to the expected term. The expected term was estimated based on historical exercise patterns and post vesting cancellations. The weighted average fair value of options granted during 2013 was \$15.10 per share based on the following assumptions: expected dividend yield — 1.8%; expected volatility — 38.8%; expected term — 7.3 years; risk-free rate — 1.4%.

Total compensation expense related to stock incentive plans of AFG and its subsidiaries was \$7 million and \$9 million in the second quarter and \$20 million and \$15 million in the first six months of 2013 and 2012, respectively.

**L. Income Taxes**

The following is a reconciliation of income taxes at the statutory rate of 35% to the provision for income taxes as shown in the Statement of Earnings (in millions):

	Three months ended June 30,				Six months ended June 30,			
	2013		2012		2013		2012	
	Amount	% of EBT	Amount	% of EBT	Amount	% of EBT	Amount	% of EBT
Earnings before income taxes (“EBT”)	\$ 126		\$ 136		\$ 301		\$ 282	
Income taxes at statutory rate	\$ 44	35%	\$ 48	35%	\$ 105	35%	\$ 99	35%
Effect of:								
Tax exempt interest	(6)	(5%)	(6)	(4%)	(11)	(4%)	(12)	(4%)
Losses of managed investment entities	11	9%	6	4%	15	5%	16	6%
Subsidiaries not in AFG’s tax return	(1)	(1%)	1	1%	—	—%	2	1%
Other	1	1%	3	2%	2	1%	5	1%
Provision for income taxes as shown on the Statement of Earnings	\$ 49	39%	\$ 52	38%	\$ 111	37%	\$ 110	39%

During the second quarter and first six months of 2013, there were no material changes to AFG’s liability for uncertain tax positions, which is discussed in *Note L — “Income Taxes,”* to AFG’s 2012 Form 10-K.

**M. Contingencies**

As previously disclosed, AFG paid \$124 million in the second quarter of 2013 related to the settlement of the A.P. Green asbestos claim in its property and casualty operations that had been accrued in prior years. Except for the payment of this claim, there have been no significant changes to the matters discussed and referred to in *Note M — “Contingencies”* of AFG’s 2012 Form 10-K, which covers property and casualty insurance reserves for claims related to environmental exposures, asbestos and other mass tort claims, as well as environmental and occupational injury and disease claims of former subsidiary railroad and manufacturing operations.

**FORWARD-LOOKING STATEMENTS**

The Private Securities Litigation Reform Act of 1995 provides a safe harbor for forward-looking statements. Some of the forward-looking statements can be identified by the use of words such as “anticipates”, “believes”, “expects”, “projects”, “estimates”, “intends”, “plans”, “seeks”, “could”, “may”, “should”, “will” or the negative version of those words or other comparable terminology. Such forward-looking statements include statements relating to: expectations concerning market and other conditions and their effect on future premiums, revenues, earnings and investment activities; recoverability of asset values; expected losses and the adequacy of reserves for long-term care, asbestos, environmental pollution and mass tort claims; rate changes; and improved loss experience.

Actual results and/or financial condition could differ materially from those contained in or implied by such forward-looking statements for a variety of reasons including but not limited to:

- changes in financial, political and economic conditions, including changes in interest and inflation rates, currency fluctuations and extended economic recessions or expansions in the U.S. and/or abroad;
- performance of securities markets;
- AFG’s ability to estimate accurately the likelihood, magnitude and timing of any losses in connection with investments in the non-agency residential mortgage market;
- new legislation or declines in credit quality or credit ratings that could have a material impact on the valuation of securities in AFG’s investment portfolio;
- the availability of capital;
- regulatory actions (including changes in statutory accounting rules);
- changes in the legal environment affecting AFG or its customers;
- tax law and accounting changes;
- levels of natural catastrophes and severe weather, terrorist activities (including any nuclear, biological, chemical or radiological events), incidents of war or losses resulting from civil unrest and other major losses;
- development of insurance loss reserves and establishment of other reserves, particularly with respect to amounts associated with asbestos and environmental claims and AFG’s run-off long-term care business;
- availability of reinsurance and ability of reinsurers to pay their obligations;
- the unpredictability of possible future litigation if certain settlements of current litigation do not become effective;
- trends in persistency, mortality and morbidity;
- competitive pressures, including those in the annuity distribution channels;
- the ability to obtain adequate rates and policy terms; and

**Management's Discussion and Analysis of Financial Condition and Results of Operations — Continued**

- changes in AFG's credit ratings or the financial strength ratings assigned by major ratings agencies to AFG's operating subsidiaries.

The forward-looking statements herein are made only as of the date of this report. The Company assumes no obligation to publicly update any forward-looking statements.

**OVERVIEW****Financial Condition**

AFG is organized as a holding company with almost all of its operations being conducted by subsidiaries. AFG, however, has continuing cash needs for administrative expenses, the payment of principal and interest on borrowings, shareholder dividends, and taxes. Therefore, certain analyses are best done on a parent only basis while others are best done on a total enterprise basis. In addition, because most of its businesses are financial in nature, AFG does not prepare its consolidated financial statements using a current-noncurrent format. Consequently, certain traditional ratios and financial analysis tests are not meaningful.

**Results of Operations**

Through the operations of its subsidiaries, AFG is engaged primarily in property and casualty insurance, focusing on specialized commercial products for businesses and in the sale of fixed and fixed-indexed annuities in the retail, financial institutions and education markets.

Net earnings attributable to AFG's shareholders for the second quarter and first six months of 2013 were \$110 million (\$1.20 per share, diluted) and \$230 million (\$2.52 per share, diluted), respectively, compared to \$99 million (\$1.01 per share, diluted) and \$212 million (\$2.15 per share, diluted) reported in the same periods of 2012. Significantly higher profits in the annuity segment and higher realized gains on sales of securities were partially offset by the absence of earnings from the Medicare supplement and critical illness businesses that were sold in August 2012, and lower underwriting profits and investment income in AFG's property and casualty insurance segment.

**CRITICAL ACCOUNTING POLICIES**

Significant accounting policies are summarized in *Note A — "Accounting Policies"* to the financial statements. The preparation of financial statements in conformity with U.S. generally accepted accounting principles ("GAAP") requires management to make estimates and assumptions that can have a significant effect on amounts reported in the financial statements. As more information becomes known, these estimates and assumptions change and, thus, impact amounts reported in the future. The areas where management believes the degree of judgment required to determine amounts recorded in the financial statements make accounting policies critical are as follows:

- the establishment of insurance reserves, especially asbestos and environmental-related reserves and reserves for AFG's closed block of long-term care insurance,
- the recoverability of reinsurance,
- the recoverability of deferred acquisition costs,
- the establishment of asbestos and environmental reserves of former railroad and manufacturing operations, and
- the valuation of investments, including the determination of "other-than-temporary" impairments.

For a discussion of these policies, see *Management's Discussion and Analysis — "Critical Accounting Policies"* in AFG's 2012 Form 10-K.

**Management's Discussion and Analysis of Financial Condition and Results of Operations — Continued****LIQUIDITY AND CAPITAL RESOURCES**

**Ratios** AFG's debt to total capital ratio on a consolidated basis is shown below (dollars in millions):

	June 30, 2013	December 31,	
		2012	2011
Long-term debt	\$ 949	\$ 953	\$ 934
Total capital	5,092	4,907	4,860
Ratio of debt to total capital:			
Including debt secured by real estate	18.6%	19.4%	19.2%
Excluding debt secured by real estate	17.6%	18.4%	18.2%

The ratio of debt to total capital is a non-GAAP measure that management believes is useful for investors, analysts and independent ratings agencies to evaluate AFG's financial strength and liquidity and to provide insight into how AFG finances its operations. The ratio is calculated by dividing AFG's long-term debt by its total capital, which includes long-term debt, noncontrolling interests and shareholders' equity (excluding unrealized gains (losses) related to fixed maturity investments and appropriated retained earnings related to managed investment entities).

AFG's ratio of earnings to fixed charges, including annuity benefits as a fixed charge, was 2.14 for the six months ended June 30, 2013 and 1.98 for the year ended December 31, 2012. Excluding annuity benefits, this ratio was 8.46 and 7.16, respectively. Although the ratio excluding annuity benefits is not required or encouraged to be disclosed under Securities and Exchange Commission rules, it is presented because interest credited to annuity policyholder accounts is not always considered a borrowing cost for an insurance company.

**Condensed Consolidated Cash Flows**

AFG's cash flows from operating, investing and financing activities as detailed in its Consolidated Statement of Cash Flows are shown below (in millions):

	Six months ended June 30,	
	2013	2012
Net cash provided by operating activities	\$ 196	\$ 226
Net cash used in investing activities	(1,192)	(826)
Net cash provided by financing activities	562	799
Net change in cash and cash equivalents	\$ (434)	\$ 199

AFG's principal sources of cash include insurance premiums, income from its investment portfolio and proceeds from the maturities, redemptions and sales of investments. Insurance premiums in excess of acquisition expenses and operating costs are invested until they are needed to meet policyholder obligations or made available to the parent company through dividends to cover debt obligations, corporate expenses, and to provide returns to shareholders through share repurchases and dividends.

Net cash provided by operating activities was \$196 million for the first six months of 2013 compared to \$226 million in the first six months of 2012, a decrease of \$30 million. AFG's property and casualty insurance operations typically produce positive net operating cash flows as premiums collected and investment income exceed policy acquisition costs, claims payments and operating expenses. AFG's net cash provided by operating activities is impacted by the level and timing of property and casualty premiums, claim and expense payments and recoveries from reinsurers. AFG's annuity operations typically produce positive net operating cash flows as investment income exceeds acquisition costs and operating expenses. Interest credited on annuity policyholder funds is a non-cash increase in AFG's annuity benefits accumulated liability and annuity premiums, benefits and withdrawals are considered financing activities due to the deposit-type nature of annuities. The \$30 million decrease in net cash provided by operating activities reflects the payment of a \$124 million asbestos claim settlement in the property and casualty operations, which had been accrued for in prior years.

Net cash used in investing activities was \$1.19 billion for the first six months of 2013 compared to \$826 million in the first six months of 2012, an increase of \$366 million. AFG's investing activities consist primarily of the investment of funds provided by its property and casualty and annuity products. The \$75 million decline in net cash flows from annuity policyholders in the first six months of 2013 as compared to the 2012 period (discussed below under net cash provided by financing activities)

**Management's Discussion and Analysis of Financial Condition and Results of Operations — Continued**

reduced the amount of cash available for investment in the first six months of 2013 compared to the 2012 period. However, during the first six months of 2013, AFG reduced cash on hand by \$164 million through the purchase of investments in the annuity and run-off long-term care and life segments. During the first six months of 2012, cash on hand in the annuity and run-off long-term care and life segments increased by \$135 million from year-end 2011 as net cash flows from annuity policyholders outpaced the investment of the funds received. The increase in net cash used in investing activities also reflects the use of cash and cash equivalents held in the property and casualty operations to purchase fixed maturity and equity securities during the second quarter of 2013. Investing activities also include the purchase and disposal of managed investment entity investments (collateralized loan obligations), which are presented separately in AFG's Balance Sheet. Net investment activity in the managed investment entities was a \$386 million source of cash in the first six months of 2013 compared to a \$181 million source of cash in the 2012 period. See *Managed Investment Entities* in Note A — "Accounting Policies" and Note H — "Managed Investment Entities".

Net cash provided by financing activities was \$562 million for the first six months of 2013 compared to \$799 million in the first six months of 2012, a decrease of \$237 million. AFG's financing activities consist primarily of transactions with annuity policyholders, issuances and retirements of long-term debt, repurchases of common stock and dividend payments. Annuity receipts exceeded annuity surrenders, benefits, withdrawals and transfers by \$948 million in the first six months of 2013 compared to \$1.02 billion in the 2012 period, resulting in a \$75 million decrease in net cash provided by financing activities in the 2013 period compared to the 2012 period. Cash flows from financing activities for the first six months of 2012 include \$223 million in net proceeds from the issuance of long-term debt in June 2012. The proceeds from the June debt offering were used primarily to retire higher interest rate debt in July 2012. During the first six months of 2013, AFG repurchased 1.4 million shares of its Common Stock for \$70 million compared to 4.0 million shares repurchased in the first six months of 2012 for \$153 million, which accounted for an \$83 million increase in net cash provided by financing activities in the 2013 period compared to the 2012 period. Financing activities also include the issuance and retirement of managed investment entity liabilities, which are nonrecourse to AFG and presented separately in AFG's Balance Sheet. The retirement of managed investment entity liabilities exceed issuances by \$308 million in the first six months of 2013 compared to \$274 million in the first six months of 2012, accounting for \$34 million of the decrease in net cash provided by financing activities in the 2013 period compared to the 2012 period. See *Managed Investment Entities* in Note A — "Accounting Policies" and Note H — "Managed Investment Entities".

**Parent and Subsidiary Liquidity**

**Parent Holding Company Liquidity** Management believes AFG has sufficient resources to meet its liquidity requirements. If funds generated from operations, including dividends, tax payments and borrowings from subsidiaries, are insufficient to meet fixed charges in any period, AFG would be required to utilize parent company cash and marketable securities or to generate cash through borrowings, sales of other assets, or similar transactions.

In December 2012, AFG replaced its bank credit facility with a four-year, \$500 million revolving credit line. Amounts borrowed under this agreement bear interest at rates ranging from 1.00% to 1.875% (currently 1.375%) over LIBOR based on AFG's credit rating. There were no borrowings under the agreement, or under any other parent company short-term borrowing arrangements, during 2012 or the first six months of 2013.

During the first six months of 2013, AFG repurchased 1.4 million shares of its Common Stock for \$70 million (primarily in the second quarter). During 2012, AFG repurchased 10.9 million shares of its Common Stock for \$415 million.

Under tax allocation agreements with AFG, its 80%-owned U.S. subsidiaries generally pay taxes to (or recover taxes from) AFG based on each subsidiary's contribution to amounts due under AFG's consolidated tax return.

**Subsidiary Liquidity** Great American Life Insurance Company ("GALIC"), a wholly-owned annuity subsidiary, is a member of the Federal Home Loan Bank of Cincinnati ("FHLB"). The FHLB makes advances and provides other banking services to member institutions, which provides the annuity operations with a substantial additional source of liquidity. These advances further the FHLB's mission of improving access to housing by increasing liquidity in the residential mortgage-backed securities market. In the second quarter of 2013, the FHLB advanced GALIC \$200 million, increasing the total amount advanced to \$440 million at June 30, 2013 (included in annuity benefits accumulated). The interest rates on the advances range from 0.02% to 0.23% over LIBOR (average rate of 0.35% at June 30, 2013). While these advances must be repaid between 2016 and 2018, GALIC has the option to prepay all or a portion of the advances. GALIC has invested the proceeds from the advances in fixed maturity securities for the purpose of earning a spread over the interest payments due to the FHLB.

**Management's Discussion and Analysis of Financial Condition and Results of Operations — Continued**

In November 2012, National Interstate Corporation (“NATL”), a 52%-owned property and casualty insurance subsidiary, replaced its \$50 million bank credit facility with a five-year, \$100 million unsecured credit agreement. There was \$12 million borrowed under this agreement at June 30, 2013, bearing interest at 1.34% (six-month LIBOR plus 0.875%).

The liquidity requirements of AFG's insurance subsidiaries relate primarily to the liabilities associated with their products as well as operating costs and expenses, payments of dividends and taxes to AFG and contributions of capital to their subsidiaries. Historically, cash flows from premiums and investment income have generally provided more than sufficient funds to meet these requirements. Funds received in excess of cash requirements are generally invested in additional marketable securities. In addition, the insurance subsidiaries generally hold a significant amount of highly liquid, short-term investments.

The excess cash flow of AFG's property and casualty group allows it to extend the duration of its investment portfolio somewhat beyond that of its claim reserves.

In the annuity business, where profitability is largely dependent on earning a “spread” between invested assets and annuity liabilities, the duration of investments is generally maintained close to that of liabilities. In a rising interest rate environment, significant protection from withdrawals exists in the form of temporary and permanent surrender charges on AFG's annuity products. With declining rates, AFG receives some protection (from spread compression) due to the ability to lower crediting rates, subject to contractually guaranteed minimum interest rates (“GMIRs”). AFG began selling policies with GMIRs below 2% in 2003; almost all new business since late 2010 has been issued with a 1% GMIR. At June 30, 2013, AFG could reduce the average crediting rate of its \$14 billion of traditional and fixed-indexed deferred annuities without guaranteed withdrawal benefits by approximately 41 basis points (on a weighted average basis).

AFG believes its insurance subsidiaries maintain sufficient liquidity to pay claims and benefits and operating expenses. In addition, these subsidiaries have sufficient capital to meet commitments in the event of unforeseen events such as reserve deficiencies, inadequate premium rates or reinsurer insolvencies. Nonetheless, changes in statutory accounting rules, significant declines in the fair value of the insurance subsidiaries' investment portfolios or significant ratings downgrades on these investments, could create a need for additional capital.

**Investments** AFG's investment portfolio at June 30, 2013, contained \$25.04 billion in “Fixed maturities” classified as available for sale and \$1.20 billion in “Equity securities,” all carried at fair value with unrealized gains and losses included in a separate component of shareholders' equity on an after-tax basis. In addition, \$293 million in fixed maturities were classified as trading with changes in unrealized holding gains or losses included in investment income.

Fair values for AFG's portfolio are determined by AFG's internal investment professionals using data from nationally recognized pricing services as well as non-binding broker quotes. Fair values of equity securities are generally based on closing prices obtained from the pricing services. For mortgage-backed securities (“MBS”), which comprise approximately 27% of AFG's fixed maturities, prices for each security are generally obtained from both pricing services and broker quotes. For the remainder of AFG's fixed maturity portfolio, approximately 86% are priced using pricing services and the balance is priced primarily by using non-binding broker quotes. When prices obtained for the same security vary, AFG's internal investment professionals select the price they believe is most indicative of an exit price.

The pricing services use a variety of observable inputs to estimate fair value of fixed maturities that do not trade on a daily basis. Based upon information provided by the pricing services, these inputs include, but are not limited to, recent reported trades, benchmark yields, issuer spreads, bids or offers, reference data, and measures of volatility. Included in the pricing of MBS are estimates of the rate of future prepayments and defaults of principal over the remaining life of the underlying collateral. Due to the lack of transparency in the process that brokers use to develop prices, valuations that are based on brokers' prices are classified as Level 3 in the GAAP hierarchy unless the price can be corroborated, for example, by comparison to similar securities priced using observable inputs.

Valuation techniques utilized by pricing services and prices obtained from external sources are reviewed by AFG's internal investment professionals who are familiar with the securities being priced and the markets in which they trade to ensure the fair value determination is representative of an exit price. To validate the appropriateness of the prices obtained, these investment managers consider widely published indices (as benchmarks), recent trades, changes in interest rates, general economic conditions and the credit quality of the specific issuers. In addition, AFG communicates directly with pricing services regarding the methods and assumptions used in pricing, including verifying, on a test basis, the inputs used by the services to value specific securities.

**Management's Discussion and Analysis of Financial Condition and Results of Operations — Continued**

In general, the fair value of AFG's fixed maturity investments is inversely correlated to changes in interest rates. The following table demonstrates the sensitivity of such fair values to reasonably likely changes in interest rates by illustrating the estimated effect on AFG's fixed maturity portfolio that an immediate increase of 100 basis points in the interest rate yield curve would have at June 30, 2013 (dollars in millions). Increases or decreases from the 100 basis points illustrated would be approximately proportional.

Fair value of fixed maturity portfolio	\$	25,328
Pretax impact on fair value of 100 bps increase in interest rates	\$	(1,140)
Pretax impact as % of total fixed maturity portfolio		(4.5%)

Approximately 86% of the fixed maturities held by AFG at June 30, 2013, were rated "investment grade" (credit rating of AAA to BBB) by nationally recognized rating agencies. Investment grade securities generally bear lower yields and lower degrees of risk than those that are unrated and non-investment grade. Management believes that the high quality investment portfolio should generate a stable and predictable investment return.

MBS are subject to significant prepayment risk due to the fact that, in periods of declining interest rates, mortgages may be repaid more rapidly than scheduled as borrowers refinance higher rate mortgages to take advantage of lower rates. Although interest rates have been low for the last few years, a weak housing market and uncertain economic conditions have led to tighter lending standards, which have resulted in fewer buyers being able to refinance the mortgages underlying much of AFG's non-agency residential MBS portfolio.

Summarized information for AFG's MBS (including those classified as trading) at June 30, 2013, is shown (in millions) in the table below. Agency-backed securities are those issued by a U.S. government-backed agency; Alt-A mortgages are those with risk profiles between prime and subprime. The majority of the Alt-A securities and substantially all of the subprime securities are backed by fixed-rate mortgages. The average life of the residential and commercial MBS is approximately 3 years and 4 years, respectively.

Collateral type	Amortized Cost	Fair Value	Fair Value as % of Cost	Unrealized Gain (Loss)	% Rated Investment Grade
Residential:					
Agency-backed	\$ 226	\$ 232	103%	\$ 6	100%
Non-agency prime	1,922	2,094	109%	172	44%
Alt-A	828	895	108%	67	23%
Subprime	886	945	107%	59	16%
Commercial	2,631	2,858	109%	227	97%
	<u>\$ 6,493</u>	<u>\$ 7,024</u>	108%	<u>\$ 531</u>	61%

The National Association of Insurance Commissioners ("NAIC") assigns creditworthiness designations on a scale of 1 to 6 with 1 being the highest quality and 6 being the lowest quality. The NAIC retained third-party investment management firms to assist in the determination of appropriate NAIC designations for mortgage-backed securities based not only on the probability of loss (which is the primary basis of ratings by the major ratings firms), but also on the severity of loss and statutory carrying value. At June 30, 2013, 97% (based on statutory carrying value of \$6.41 billion) of AFG's MBS securities had an NAIC designation of 1 or 2.

Municipal bonds represented approximately 19% of AFG's fixed maturity portfolio at June 30, 2013. AFG's municipal bond portfolio is high quality, with 99% of the securities rated investment grade at that date. The portfolio is well diversified across the states of issuance and individual issuers. At June 30, 2013, approximately 76% of the municipal bond portfolio was held in revenue bonds, with the remaining 24% held in general obligation bonds. State general obligation securities of California, Illinois, New Jersey and New York collectively represented less than 2% of this portfolio.

Summarized information for the unrealized gains and losses recorded in AFG's Balance Sheet at June 30, 2013, is shown in the following table (dollars in millions). Approximately \$186 million of available for sale "Fixed maturities" and \$65 million of "Equity securities" had no unrealized gains or losses at June 30, 2013.

	Securities With Unrealized Gains	Securities With Unrealized Losses
<b>Available for Sale Fixed Maturities</b>		
Fair value of securities	\$ 19,371	\$ 5,478
Amortized cost of securities	\$ 17,861	\$ 5,693
Gross unrealized gain (loss)	\$ 1,510	\$ (215)
Fair value as % of amortized cost	108%	96%
Number of security positions	3,772	1,004
Number individually exceeding \$2 million gain or loss	132	5
Concentration of gains (losses) by type or industry (exceeding 5% of unrealized):		
States and municipalities	\$ 190	\$ (79)
Mortgage-backed securities	581	(50)
Banks, savings and credit institutions	104	(16)
Asset-backed securities	41	(12)
Gas and electric services	130	(3)
Percentage rated investment grade	86%	85%
<b>Equity Securities</b>		
Fair value of securities	\$ 894	\$ 240
Cost of securities	\$ 663	\$ 256
Gross unrealized gain (loss)	\$ 231 (*)	\$ (16)
Fair value as % of cost	135%	94%
Number of security positions	189	62
Number individually exceeding \$2 million gain or loss	38	1

(\*) Includes \$23 million on AFG's investment in Verisk Analytics, Inc.

The table below sets forth the scheduled maturities of AFG's available for sale fixed maturity securities at June 30, 2013, based on their fair values. Securities with sinking funds are reported at average maturity. Actual maturities may differ from contractual maturities because certain securities may be called or prepaid by the issuers.

	Securities With Unrealized Gains	Securities With Unrealized Losses
<b>Maturity</b>		
One year or less	5%	1%
After one year through five years	24%	7%
After five years through ten years	26%	34%
After ten years	7%	25%
	62%	67%
Asset-backed securities (average life of approximately 4 1/2 years)	8%	14%
Mortgage-backed securities (average life of approximately 3 1/2 years)	30%	19%
	100%	100%

The table below (dollars in millions) summarizes the unrealized gains and losses on fixed maturity securities by dollar amount:

	Aggregate Fair Value	Aggregate Unrealized Gain (Loss)	Fair Value as % of Cost Basis
<b>Fixed Maturities at June 30, 2013</b>			
<b>Securities with unrealized gains:</b>			
Exceeding \$500,000 (895 securities)	\$ 10,220	\$ 1,102	112%
\$500,000 or less (2,877 securities)	9,151	408	105%
	<u>\$ 19,371</u>	<u>\$ 1,510</u>	108%
<b>Securities with unrealized losses:</b>			
Exceeding \$500,000 (109 securities)	\$ 1,364	\$ (110)	93%
\$500,000 or less (895 securities)	4,114	(105)	98%
	<u>\$ 5,478</u>	<u>\$ (215)</u>	96%

The following table summarizes (dollars in millions) the unrealized loss for all securities with unrealized losses by issuer quality and length of time those securities have been in an unrealized loss position:

	Aggregate Fair Value	Aggregate Unrealized Loss	Fair Value as % of Cost Basis
<b>Securities with Unrealized Losses at June 30, 2013</b>			
<b>Investment grade fixed maturities with losses for:</b>			
Less than one year (736 securities)	\$ 4,525	\$ (165)	96%
One year or longer (32 securities)	109	(4)	96%
	<u>\$ 4,634</u>	<u>\$ (169)</u>	96%
<b>Non-investment grade fixed maturities with losses for:</b>			
Less than one year (129 securities)	\$ 627	\$ (12)	98%
One year or longer (107 securities)	217	(34)	86%
	<u>\$ 844</u>	<u>\$ (46)</u>	95%
<b>Common equity securities with losses for:</b>			
Less than one year (35 securities)	\$ 138	\$ (12)	92%
One year or longer (3 securities)	—	—	—%
	<u>\$ 138</u>	<u>\$ (12)</u>	92%
<b>Perpetual preferred equity securities with losses for:</b>			
Less than one year (19 securities)	\$ 78	\$ (3)	96%
One year or longer (5 securities)	24	(1)	96%
	<u>\$ 102</u>	<u>\$ (4)</u>	96%

When a decline in the value of a specific investment is considered to be “other-than-temporary,” a provision for impairment is charged to earnings (accounted for as a realized loss) and the cost basis of that investment is reduced by the amount of the charge. The determination of whether unrealized losses are “other-than-temporary” requires judgment based on subjective as well as objective factors as detailed in AFG’s 2012 Form 10-K under *Management’s Discussion and Analysis — “Investments.”*

Based on its analysis, management believes AFG will recover its cost basis in the securities with unrealized losses and that AFG has the ability to hold the securities until they recover in value and had no intent to sell them at June 30, 2013. Although AFG has the ability to continue holding its investments with unrealized losses, its intent to hold them may change due to deterioration in the issuers’ creditworthiness, decisions to lessen exposure to a particular issuer or industry, asset/liability management decisions, market movements, changes in views about appropriate asset allocation or the desire to offset taxable realized gains. Should AFG’s ability or intent change with regard to a particular security, a charge for impairment would likely be required. While it is not possible to accurately predict if or when a specific security will become impaired, charges for other-than-temporary impairment could be material to results of operations in future periods. Significant declines in the fair value of AFG’s investment portfolio could have a significant adverse effect on AFG’s liquidity.

**Management's Discussion and Analysis of Financial Condition and Results of Operations — Continued**

**Uncertainties** Management believes that the areas posing the greatest risk of material loss are the adequacy of its insurance reserves and contingencies arising out of its former railroad and manufacturing operations. See *Management's Discussion and Analysis — "Uncertainties"* in AFG's 2012 Form 10-K.

**MANAGED INVESTMENT ENTITIES**

Accounting standards require AFG to consolidate its investments in collateralized loan obligation ("CLO") entities that it manages and owns an interest in (in the form of debt). See *Note A — "Accounting Policies — Managed Investment Entities"* and *Note H — "Managed Investment Entities."* The effect of consolidating these entities is shown in the tables below (in millions). The "Before CLO Consolidation" columns include AFG's investment and earnings in the CLOs on an unconsolidated basis.

(c) Elimination of management fees earned by AFG.

(d) Allocate losses of CLOs attributable to other debt holders to noncontrolling interests.

Management's Discussion and Analysis of Financial Condition and Results of Operations — Continued
**RESULTS OF OPERATIONS**

**General** Results of operations as shown in the accompanying financial statements are prepared in accordance with GAAP.

AFG's net earnings attributable to shareholders, determined in accordance with GAAP, include certain items that may not be indicative of its ongoing core operations. The following table identifies such items and reconciles net earnings attributable to shareholders to core net operating earnings, a non-GAAP financial measure that AFG believes is a useful tool for investors and analysts in analyzing ongoing operating trends (in millions, except per share amounts):

	Three months ended June 30,		Six months ended June 30,	
	2013	2012	2013	2012
Core net operating earnings	\$ 87	\$ 90	\$ 171	\$ 175
Realized gains (*)	26	9	62	37
ELNY guaranty fund assessments (*)	(3)	—	(3)	—
<b>Net earnings attributable to shareholders</b>	<b>\$ 110</b>	<b>\$ 99</b>	<b>\$ 230</b>	<b>\$ 212</b>
Diluted per share amounts:				
Core net operating earnings	\$ .96	\$ .91	\$ 1.88	\$ 1.77
Realized gains	.28	.10	.68	.38
ELNY guaranty fund assessments	(.04)	—	(.04)	—
<b>Net earnings attributable to shareholders</b>	<b>\$ 1.20</b>	<b>\$ 1.01</b>	<b>\$ 2.52</b>	<b>\$ 2.15</b>

(\*) The tax effects of reconciling items are shown below (in millions):

Realized gains	\$ (15)	\$ (5)	\$ (35)	\$ (21)
ELNY guaranty fund assessments	2	—	2	—

In addition, realized gains are shown net of noncontrolling interests as follows (in millions):

Noncontrolling interests	\$ —	\$ (1)	\$ (1)	\$ (1)
--------------------------	------	--------	--------	--------

Net earnings attributable to shareholders increased \$11 million in the second quarter of 2013 compared to the same period in 2012 reflecting higher realized gains on securities. The 2013 second quarter results include an after-tax charge of \$3 million related to guaranty fund assessments expected from various state funds for the insolvency and liquidation of Executive Life Insurance Company of New York ("ELNY"), an unaffiliated life insurance company. Core net operating earnings decreased \$3 million in the second quarter of 2013 compared to the same period in 2012 as significantly higher profits in the annuity segment was more than offset by the absence of earnings from the Medicare supplement and critical illness businesses that were sold in August 2012 and lower underwriting profits and investment income in the property and casualty insurance segment. However, core net operating earnings per share increased \$.05 in the second quarter of 2013 compared to the same period in 2012 due to the impact of share repurchases over the last twelve months.

Net earnings attributable to shareholders increased \$18 million in the first six months of 2013 compared to the same period in 2012 reflecting higher realized gains on securities. Core net operating earnings decreased \$4 million in the first six months of 2013 compared to the same period in 2012 due to the items mentioned in the discussion of the second quarter results (above).

**Management's Discussion and Analysis of Financial Condition and Results of Operations — Continued**
**RESULTS OF OPERATIONS — QUARTERS ENDED JUNE 30, 2013 AND 2012**

**Segmented Statement of Earnings** AFG reports its business as five segments: (i) Property and casualty insurance (“P&C”), (ii) Annuity, (iii) Run-off long-term care and life, (iv) Medicare supplement and critical illness (sold in August 2012) and (v) Other, which includes holding company costs and operations attributable to the noncontrolling interests of the managed investment entities (“MIEs”).

AFG's net earnings attributable to shareholders, determined in accordance with GAAP, include certain items that may not be indicative of its ongoing core operations. The following tables for the quarters ended June 30, 2013 and 2012 identify such items by segment and reconcile net earnings attributable to shareholders to core net operating earnings, a non-GAAP financial measure that AFG believes is a useful tool for investors and analysts in analyzing ongoing operating trends (in millions):

**Property and Casualty Insurance Segment — Results of Operations** Performance measures such as underwriting profit or loss and related combined ratios are often used by property and casualty insurers to help users of their financial statements better understand the company's performance. Underwriting profitability is measured by the combined ratio, which is a sum of the ratios of losses and loss adjustment expenses, and commissions and other underwriting expenses to premiums. A combined ratio under 100% indicates an underwriting profit. The combined ratio does not reflect investment income, other income, other expenses or federal income taxes. AFG's property and casualty insurance operations contributed \$79 million in pretax earnings in the second quarter of 2013 compared to \$105 million in the second quarter of 2012, a decrease of \$26 million (25%). The lower earnings are primarily the result of lower underwriting profits in the Property and transportation group, particularly in the transportation business, and higher catastrophe losses.

**Management's Discussion and Analysis of Financial Condition and Results of Operations — Continued**

The following table details AFG's earnings before income taxes from its property and casualty operations for the three months ended June 30, 2013 and 2012 (dollars in millions):

	Three months ended June 30,		% Change
	2013	2012	
Gross written premiums	\$ 1,041	\$ 1,024	2%

Loss and LAE ratio	60.3%	55.7%	4.6%
Underwriting expense ratio	36.7%	36.1%	0.6%
Combined ratio	97.0%	91.8%	5.2%
Aggregate (including discontinued lines)			
Loss and LAE ratio	60.5%	56.8%	3.7%
Underwriting expense ratio	36.7%	36.1%	0.6%
Combined ratio	97.2%	92.9%	4.3%

While AFG desires and seeks to earn an underwriting profit on all of its business, it is not always possible to do so. As a result, AFG attempts to expand in the most profitable businesses and control growth or even reduce its involvement in the least profitable businesses.

AFG reports the underwriting performance of its Specialty insurance business in the following sub-components: (i) Property and transportation, (ii) Specialty casualty and (iii) Specialty financial.

To understand the overall profitability of particular lines, the timing of claims payments and the related impact of investment income must be considered. Certain "short-tail" lines of business (primarily property coverages) generally have quick loss payouts, which reduce the time funds are held, thereby limiting investment income earned thereon. In contrast, "long-tail" lines of business (primarily liability coverages and workers' compensation) generally have payouts that are either structured over many years or take many years to settle, thereby significantly increasing investment income earned on related premiums received.

**Management's Discussion and Analysis of Financial Condition and Results of Operations — Continued****Gross Written Premiums**

Gross written premiums ("GWP") for AFG's property and casualty insurance segment were \$1.04 billion for the second quarter of 2013 compared to \$1.02 billion for the second quarter of 2012, an increase of \$17 million (2%). Detail of AFG's property and casualty gross written premiums is shown below (dollars in millions):

	Three months ended June 30,				
	2013		2012		% Change
	GWP	%	GWP	%	
Property and transportation	\$ 446	43%	\$ 531	52%	(16%)
Specialty casualty	440	42%	358	35%	23%
Specialty financial	155	15%	134	13%	16%
Other specialty	—	—%	1	—%	
	<u>\$ 1,041</u>	<u>100%</u>	<u>\$ 1,024</u>	<u>100%</u>	<u>2%</u>

**Reinsurance Premiums Ceded**

Reinsurance premiums ceded ("Ceded") for AFG's property and casualty insurance segment were 28% of gross written premiums for the second quarter of 2013 compared to 29% for the second quarter of 2012, a decrease of 1 percentage point. Detail of AFG's property and casualty reinsurance premiums ceded is shown below (dollars in millions):

	Three months ended June 30,				
	2013		2012		Change in % of GWP
	Ceded	% of GWP	Ceded	% of GWP	
Property and transportation	\$ (118)	26%	\$ (162)	31%	(5%)
Specialty casualty	(157)	36%	(114)	32%	4%
Specialty financial	(38)	25%	(32)	24%	1%
Other specialty	21		16		
	<u>\$ (292)</u>	<u>28%</u>	<u>\$ (292)</u>	<u>29%</u>	<u>(1%)</u>

**Net Written Premiums**

Net written premiums ("NWP") for AFG's property and casualty insurance segment were \$749 million for the second quarter of 2013 compared to \$732 million for the second quarter of 2012, an increase of \$17 million (2%). Detail of AFG's property and casualty net written premiums is shown below (dollars in millions):

	Three months ended June 30,				
	2013		2012		% Change
	NWP	%	NWP	%	
Property and transportation	\$ 328	44%	\$ 369	51%	(11%)
Specialty casualty	283	38%	244	33%	16%
Specialty financial	117	15%	102	14%	15%
Other specialty	21	3%	17	2%	24%
	<u>\$ 749</u>	<u>100%</u>	<u>\$ 732</u>	<u>100%</u>	<u>2%</u>

**Management's Discussion and Analysis of Financial Condition and Results of Operations — Continued****Net Earned Premiums**

Net earned premiums ("NEP") for AFG's property and casualty insurance segment were \$709 million for the second quarter of 2013 compared to \$640 million for the second quarter of 2012, an increase of \$69 million (11%). Detail of AFG's property and casualty net earned premiums is shown below (dollars in millions):

	Three months ended June 30,				
	2013		2012		% Change
	NEP	%	NEP	%	
Property and transportation	\$ 301	42%	\$ 290	45%	4%
Specialty casualty	277	39%	236	37%	17%
Specialty financial	113	16%	98	15%	15%
Other specialty	18	3%	16	3%	13%
	<u>\$ 709</u>	<u>100%</u>	<u>\$ 640</u>	<u>100%</u>	<u>11%</u>

The \$17 million increase in gross written premiums for the second quarter of 2013 compared to the second quarter of 2012 reflects double digit premium growth in the Specialty casualty and Specialty financial groups, somewhat offset by lower premiums in the Property and transportation group, primarily the result of lower crop insurance premiums. Delayed planting of spring crops resulted in late acreage reporting and reduced overall second quarter 2013 specialty property and casualty premiums. Excluding crop insurance premiums, gross and net written premiums grew by 15% and 10%, respectively, when compared to the second quarter of 2012. Overall average renewal rates increased approximately 5% in the second quarter of 2013.

**Property and transportation** Gross written premiums decreased \$85 million (16%) in the second quarter of 2013 compared to the same period in 2012 due primarily to delayed acreage reporting from insureds as a result of excess moisture and late planting of corn and soybean crops. Crop premiums are impacted by annual planting decisions by each farmer. Premiums cannot be measured or recorded until crops and acreage have been reported. Each year, the timing of premium recognition is somewhat different due to planting progress. This year's lower second quarter crop premium as compared to the 2012 quarter is the result of this variability. It is expected that the delayed premiums will be included in third quarter results. Excluding crop insurance, 2013 gross and net written premiums grew by 6% and 3%, respectively, when compared to the second quarter of 2012. Average renewal rates were up approximately 6% for the second quarter of 2013. Reinsurance premiums ceded as a percentage of gross written premiums declined 5 percentage points for the second quarter of 2013 compared to the second quarter of 2012 reflecting lower cessions on the crop quota share agreement due to delayed acreage reporting from insureds.

**Specialty casualty** Gross written premiums increased \$82 million (23%) for the second quarter of 2013 compared to the second quarter of 2012 as a result of increases in nearly all businesses in this group, especially in the workers' compensation and excess and surplus lines. New business opportunities, increased exposures from higher payroll on existing accounts, strong retentions and higher renewal pricing have contributed to increased premiums in the workers' compensation businesses. In addition, new business opportunities and general market hardening have generated increased premiums in several of the excess and surplus lines businesses. Average renewal rates were up approximately 5% for this group in the second quarter of 2013. Reinsurance premiums ceded as a percentage of gross written premiums increased 4 percentage points for the second quarter of 2013 compared to the second quarter of 2012 reflecting a change in the mix of business as well as the timing of reinsurance premiums between quarters.

**Specialty financial** Gross written premiums increased \$21 million (16%) for the second quarter of 2013 compared to the second quarter of 2012 due primarily to growth in lender-placed mortgage property insurance offered by the financial institutions business. Gross written premiums for the second quarter of 2013 include \$8 million in risk fees from AFG's warranty operations. Prior to 2013, fees in the warranty operations were included in other income. Average renewal rates for this group were down 1% in the second quarter of 2013. Reinsurance premiums ceded as a percentage of gross written premiums remained virtually unchanged for the second quarter of 2013 compared to the second quarter of 2012.

**Other specialty** The amounts shown as reinsurance premiums ceded represent business assumed by AFG's internal reinsurance program from the operations that make up AFG's other Specialty sub-components.

**Management's Discussion and Analysis of Financial Condition and Results of Operations — Continued**
**Combined Ratio**

Performance measures such as the combined ratio are often used by property and casualty insurers to help users of their financial statements better understand the company's performance. The combined ratio is the sum of the loss and loss adjustment expenses ("LAE") and underwriting expense ratios. These ratios are calculated by dividing each of the respective expenses by net earned premiums. The table below details the components of the combined ratio for AFG's property and casualty segment:

	Three months ended June 30,			Three months ended June 30,	
	2013	2012	Change	2013	2012
<b>Property and transportation</b>					
Loss and LAE ratio	78.5%	67.6%	10.9%		
Underwriting expense ratio	31.8%	30.5%	1.3%		
Combined ratio	110.3%	98.1%	12.2%		
Underwriting profit (loss)				\$ (31)	\$ 6
<b>Specialty casualty</b>					
Loss and LAE ratio	53.4%	49.9%	3.5%		
Underwriting expense ratio	35.0%	36.2%	(1.2%)		
Combined ratio	88.4%	86.1%	2.3%		
Underwriting profit				\$ 32	\$ 33
<b>Specialty financial</b>					
Loss and LAE ratio	32.9%	35.8%	(2.9%)		
Underwriting expense ratio	53.7%	52.7%	1.0%		
Combined ratio	86.6%	88.5%	(1.9%)		
Underwriting profit				\$ 15	\$ 11
<b>Total Specialty</b>					
Loss and LAE ratio	60.3%	55.7%	4.6%		
Underwriting expense ratio	36.7%	36.1%	0.6%		
Combined ratio	97.0%	91.8%	5.2%		
Underwriting profit				\$ 21	\$ 52
<b>Aggregate — including discontinued lines</b>					
Loss and LAE ratio	60.5%	56.8%	3.7%		
Underwriting expense ratio	36.7%	36.1%	0.6%		
Combined ratio	97.2%	92.9%	4.3%		
Underwriting profit				\$ 19	\$ 45

The Specialty insurance operations generated an underwriting profit of \$21 million in the second quarter of 2013 compared to \$52 million for the second quarter of 2012, a decrease of \$31 million (60%). The lower profit in the 2013 quarter is primarily the result of lower underwriting profits in the Property and transportation group, particularly in the transportation businesses, and higher catastrophe losses. Catastrophe losses were \$19 million (2.6 points on the combined ratio), compared to \$6 million (0.8 points) in the second quarter of 2012.

**Property and transportation** This group reported an underwriting loss of \$31 million for the second quarter of 2013, compared to a \$6 million underwriting gain for the second quarter of 2012, a decrease in underwriting profit of \$37 million. This decrease is attributable to lower profitability in the transportation businesses and higher catastrophe losses impacting the property and inland marine operations. AFG remains committed to obtaining appropriate rate increases in the transportation businesses and will reduce premium volume as needed to increase the profitability of these operations. Catastrophe losses were \$18 million for this group during the second quarter of 2013, primarily the result of losses from spring storms in the southeastern United States, compared to \$4 million during the second quarter of 2012.

**Management's Discussion and Analysis of Financial Condition and Results of Operations — Continued**

**Specialty casualty** Underwriting profit was \$32 million for the second quarter of 2013 compared to \$33 million in the second quarter of 2012, a decrease of \$1 million (3%). A modest improvement in current accident year results was more than offset by lower favorable prior year reserve development.

**Specialty financial** Underwriting profit was \$15 million for the second quarter of 2013 compared to \$11 million in the second quarter of 2012, an increase of \$4 million (36%). The increased profitability was due primarily to higher underwriting profits in the financial institutions business, primarily from lender-placed mortgage property insurance. Most of the businesses in this group reported strong underwriting margins during the second quarter of 2013.

**Losses and Loss Adjustment Expenses**

AFG's overall loss and LAE ratio was 60.5% for the second quarter of 2013 compared to 56.8% for second quarter of 2012, an increase of 3.7 percentage points. The components of AFG's property and casualty losses and LAE amounts and ratio are detailed below:

	Three months ended June 30,				Change in Ratio
	Amount		Ratio		
	2013	2012	2013	2012	
<b>Property and transportation</b>					
Current year, excluding catastrophe losses	\$ 215	\$ 194	71.6%	66.7%	4.9%

Specialty casualty losses and LAE and ratio	<u>\$ 148</u>	<u>\$ 117</u>	<u>53.4%</u>	<u>49.9%</u>	3.5%
<b>Specialty financial</b>					
Current year, excluding catastrophe losses	\$ 36	\$ 40	32.9%	39.4%	(6.5%)
Prior accident years development	—	(4)	(0.7%)	(3.6%)	2.9%
Current year catastrophe losses	1	—	0.7%	—%	0.7%
Specialty financial losses and LAE and ratio	<u>\$ 37</u>	<u>\$ 36</u>	<u>32.9%</u>	<u>35.8%</u>	(2.9%)
<b>Total Specialty</b>					
Current year, excluding catastrophe losses	\$ 433	\$ 384	61.1%	60.2%	0.9%
Prior accident years development	(24)	(34)	(3.4%)	(5.3%)	1.9%
Current year catastrophe losses	19	6	2.6%	0.8%	1.8%
Total Specialty losses and LAE and ratio	<u>\$ 428</u>	<u>\$ 356</u>	<u>60.3%</u>	<u>55.7%</u>	4.6%
<b>Aggregate — including discontinued lines</b>					
Current year, excluding catastrophe losses	\$ 433	\$ 384	61.1%	60.2%	0.9%
Prior accident years development	(22)	(27)	(3.2%)	(4.2%)	1.0%
Current year catastrophe losses	19	6	2.6%	0.8%	1.8%
Aggregate losses and LAE and ratio	<u>\$ 430</u>	<u>\$ 363</u>	<u>60.5%</u>	<u>56.8%</u>	3.7%

**Net favorable reserve development**

AFG's property and casualty operations recorded net favorable loss reserve development related to prior accident years of \$22 million in the second quarter of 2013 compared to \$27 million in the second quarter of 2012, a decrease of \$5 million (19%).

**Management's Discussion and Analysis of Financial Condition and Results of Operations — Continued**

**Property and transportation** Net adverse reserve development of \$3 million in the second quarter of 2013 reflects an increase in severity in commercial auto liability business written in the transportation businesses partially offset by favorable development in the property and inland marine business. Net favorable reserve development of \$2 million in the second quarter of 2012 reflects lower than expected loss frequency in crop products and lower severity in ocean marine, partially offset by higher than expected claim severity in property and inland marine business.

**Specialty casualty** Net favorable reserve development of \$22 million in the second quarter of 2013 reflects lower than expected claim severity in directors and officers liability insurance and lower than expected claim severity and frequency in excess liability business. Net favorable reserve development of \$27 million in the second quarter of 2012 reflects lower than expected claim severity and frequency in homebuilders general liability operations and lower than expected claim severity in directors and officers liability insurance partially offset by higher claim frequency and severity in a run-off book of U.S.-based program (motel/hotel, restaurants, taverns and recreational) business and adverse development in AFG's Lloyd's operations, related primarily to Italian public hospital medical malpractice business (which it ceased writing in 2008).

**Specialty financial** Net favorable reserve development was nominal in the second quarter of 2013 compared to \$4 million in the second quarter of 2012. Net favorable reserve development in the second quarter of 2012 reflects lower than expected claim severity in AFG's fidelity and crime products and lower frequency and severity in surety business.

**Other specialty** In addition to the development discussed above, total specialty net favorable reserve development reflects amortization of the deferred gain on the retroactive insurance transaction entered into in connection with the sale of a business in 1998 and reserve development associated with AFG's internal reinsurance program.

**Aggregate** Aggregate results for AFG's property and casualty segment also include \$2 million of adverse development in the second quarter of 2013 related to businesses outside of the specialty group that AFG no longer writes and \$7 million of adverse development in the second quarter of 2012 related to asbestos and environmental reserves.

**Catastrophe losses**

AFG generally seeks to reduce its exposure to catastrophes through individual risk selection, including minimizing coastal and known fault-line exposures, and the purchase of reinsurance. Based on data available at December 31, 2012, AFG's exposure to a catastrophic earthquake or windstorm that industry models indicate could occur once in every 500 years (a "500-year event") is expected to be less than 3% of AFG's shareholders' equity. The \$18 million in catastrophe losses in the property and transportation group in the second quarter of 2013 was primarily the result of losses from spring storms in the southeastern United States.

**Commissions and Other Underwriting Expenses**

AFG's property and casualty commissions and other underwriting expenses ("U/W Exp") were \$260 million in the second quarter of 2013 compared to \$232 million for the second quarter of 2012, an increase of \$28 million (12%). AFG's underwriting expense ratio, calculated as commissions and other underwriting expenses divided by net premiums earned, was 36.7% for the second quarter of 2013 compared to 36.1% for the second quarter of 2012, an increase of 0.6 percentage points. Detail of AFG's property and casualty commissions and other underwriting expenses and underwriting expense ratios is shown below (dollars in millions):

	Three months ended June 30,				Change in % of NEP
	2013		2012		
	U/W Exp	% of NEP	U/W Exp	% of NEP	
Property and transportation	\$ 96	31.8%	\$ 88	30.5%	1.3%
Specialty casualty	97	35.0%	86	36.2%	(1.2%)
Specialty financial	61	53.7%	51	52.7%	1.0%
Other specialty	6	38.9%	7	37.5%	1.4%
	<u>\$ 260</u>	<u>36.7%</u>	<u>\$ 232</u>	<u>36.1%</u>	<u>0.6%</u>

The overall increase of 0.6% in AFG's expense ratio for the second quarter of 2013 as compared to the second quarter of 2012, as well as the fluctuations in AFG's sub-components, reflect changes in the mix of AFG's business and the impact of certain reinsurance ceding commissions received that are partially based on the profitability of the business ceded, partially offset by the impact of higher premiums on the ratio.

**Management's Discussion and Analysis of Financial Condition and Results of Operations — Continued**

**Property and transportation** Commissions and other underwriting expenses as a percentage of net earned premiums increased 1.3 percentage points for the second quarter of 2013 compared to the second quarter of 2012 reflecting higher profitability-based commissions paid to agents/brokers and lower profitability-based commissions received from reinsurers.

**Specialty casualty** Commissions and other underwriting expenses as a percentage of net earned premiums decreased 1.2 percentage points for the second quarter of 2013 compared to the second quarter of 2012 reflecting the impact of higher premiums on the ratio.

**Specialty financial** Commissions and other underwriting expenses as a percentage of net earned premiums increased 1.0 percentage points for the second quarter of 2013 compared to the second quarter of 2012 reflecting higher profitability-based commissions and lower ceding commissions from reinsurers, partially offset by the impact of higher premiums on the ratio.

**Property and Casualty Investment Income**

Net investment income in AFG's property and casualty operations was \$65 million for the second quarter of 2013 compared to \$69 million in the second quarter of 2012, a decrease of \$4 million (6%). In recent years, yields available in the financial markets on fixed maturity securities have generally declined, placing downward pressure on AFG's investment portfolio yield. The average invested assets and overall earned yield on investments held by AFG's property and casualty operations are provided below (dollars in millions):

	Three months ended June 30,		Change	% Change
	2013	2012		
Net investment income	\$ 65	\$ 69	\$ (4)	(6%)
Average invested assets (at amortized cost)	\$ 6,911	\$ 6,606	\$ 305	5%
Yield (net investment income as a % of average invested assets)	3.76%	4.18%	(0.42%)	

The property and casualty segment's overall yield on investments (net investment income as a percentage of average invested assets) was 3.76% for the second quarter of 2013 compared to 4.18% for the second quarter of 2012, a decline of 0.42 percentage points. In addition to the impact of lower yields available in the financial markets, the \$305 million increase in average invested assets reflects primarily higher average cash and cash equivalent balances.

**Property and Casualty Other Income and Expense, Net**

Other income and expenses, net for AFG's property and casualty operations was a net expense of \$5 million for the second quarter of 2013 compared to \$9 million for the second quarter of 2012, a decrease of \$4 million (44%). The table below details the items included in other income and expenses, net for AFG's property and casualty operations (in millions):

	Three months ended June 30,	
	2013	2012
<b>Other income</b>		
Warranty operations	\$ —	\$ 4
Income from the sale of real estate	4	—
Other	2	4
Total other income	6	8
<b>Other expenses</b>		
Warranty operations	—	5
Amortization of intangibles	3	3
Other	7	8
Total other expense	10	16
<b>Interest expense</b>	1	1
Other income and expenses, net	\$ (5)	\$ (9)

Beginning in 2013, AFG's warranty operations are included in the Specialty financial underwriting results.

Interest expense for AFG's property and casualty operations includes interest charges on long-term debt within the property and casualty operations, primarily notes secured by real estate and other secured borrowings.

**Management's Discussion and Analysis of Financial Condition and Results of Operations — Continued**
**Annuity Segment — Results of Operations**

AFG's annuity operations contributed \$77 million in GAAP pretax earnings in the second quarter of 2013 compared to \$59 million in the second quarter of 2012, an increase of \$18 million (31%). AFG's annuity operations contributed \$82 million in core pretax earnings in the second quarter of 2013 compared to \$59 million in the second quarter of 2012, an increase of \$23 million (39%). The increase in GAAP and core pretax earnings was a result of the favorable impact that rising interest rates had on AFG's fixed-indexed annuity reserves and growth in AFG's annuity business, partially offset by the run-off of higher yielding investments.

AFG recorded a second quarter pretax charge of \$5 million in its annuity operations to cover expected assessments from state guaranty funds related to the insolvency and liquidation of Executive Life Insurance Company of New York ("ELNY"), an unaffiliated life insurance company. ELNY was placed into rehabilitation by the New York Insurance Department in 1991. In April 2012, ELNY was declared insolvent and ordered into liquidation. AFG's life insurance subsidiaries are required under the solvency or guaranty laws of most states in which they do business to pay assessments up to certain prescribed limits to fund policyholder losses or liabilities of insolvent insurance companies such as ELNY and started receiving guaranty fund assessments related to ELNY from various states in the second quarter of 2013. AFG does not expect to record significant additional charges for ELNY guaranty fund assessments in future quarters.

The following table details AFG's GAAP and core earnings before income taxes from its annuity operations for the three months ended June 30, 2013 and 2012 (dollars in millions).

	Three months ended June 30,		% Change
	2013	2012	
<b>Revenues:</b>			
Net investment income	\$ 257	\$ 245	5%
Other income:			
Guaranteed withdrawal benefit fees	6	3	100%
Policy charges and other miscellaneous income	9	9	—%
Total revenues	272	257	6%
<b>Core Costs and Expenses:</b>

Equity option mark-to-market	(16)	21	(176%)
Total annuity benefits	\$ 120	\$ 147	(18%)

(b) Other expenses exclude the non-core ELNY guaranty fund assessments.

**Management's Discussion and Analysis of Financial Condition and Results of Operations — Continued**

The profitability of a fixed annuity business is largely dependent on the ability of a company to earn income on the assets supporting the business in excess of the amounts credited to policyholder accounts plus expenses incurred (earning a "spread"). Performance measures such as net interest spread and net spread earned are often presented by annuity businesses to help users of their financial statements better understand the company's performance.

**Net Spread on Fixed Annuities (excludes variable annuity earnings)**

The table below (dollars in millions) details the components of these spreads for AFG's fixed annuity operations (including fixed-indexed annuities):

	Three months ended June 30,		% Change
	2013	2012	
Average fixed annuity investments (at amortized cost)	\$ 18,615	\$ 16,373	14%
Average fixed annuity benefits accumulated	18,151	16,173	12%
<b>As % of fixed annuity benefits accumulated (except as noted):</b>			
Net investment income (as % of fixed annuity investments)	5.45%	5.93%	
Interest credited — fixed	(2.43%)	(2.77%)	
Net interest spread	3.02%	3.16%	
Policy charges and other miscellaneous income	0.13%	0.17%	
Other annuity benefit expenses, net of guaranteed withdrawal benefit fees	(0.46%)	(0.34%)	
Acquisition expenses	(1.00%)	(0.69%)	
Other expenses (*)	(0.43%)	(0.46%)	
Change in fair value of derivatives related to fixed-indexed annuities	0.39%	(0.42%)	
Net spread earned on fixed annuities	1.65%	1.42%	

(\*) Excludes the \$5 million non-core charge for the ELNY guaranty fund assessments. Including this charge, the net spread earned on fixed annuities was 1.54% for the second quarter of 2013.

**Annuity Net Investment Income**

Net investment income for the second quarter of 2013 was \$257 million compared to \$245 million for the second quarter of 2012, an increase of \$12 million (5%). This increase reflects primarily the growth in AFG's annuity business. The overall yield earned on investments in AFG's annuity operations, calculated as net investment income divided by average investment balances (at amortized cost), declined by 0.48 percentage points in the second quarter of 2013 compared to the second quarter of 2012. This decline in net investment yield reflects (i) the investment of new premium dollars in the recent low interest rate environment and (ii) the impact of the maturity and redemption of higher yielding investments. The impact of these items was partially offset by strong investment results in the 2013 quarter and a reduction in a portion of the investment portfolio held in cash and cash equivalents during the 2013 quarter as compared to the 2012 quarter.

**Annuity Interest Credited — Fixed**

Interest credited — fixed for the second quarter of 2013 was \$111 million compared to \$112 million for the second quarter of 2012, a decrease of \$1 million (1%). The impact of growth in the annuity business was more than offset by lower interest crediting rates on new premiums as compared to the crediting rates on policyholder funds surrendered or withdrawn as well as the impact of crediting rate reductions on existing policyholder funds that were implemented in the second half of 2012. The average interest rate credited to policyholders, calculated as interest credited divided by average fixed annuity benefits accumulated, decreased 0.34 percentage points in the second quarter of 2013 compared to 2012. During the second quarter of 2013, interest rates credited on new premiums generally ranged from 1.00% to 2.00%.

**Management's Discussion and Analysis of Financial Condition and Results of Operations — Continued**

To a lesser extent, the interest credited also reflects the Company's decision to lower interest rates on certain inforce business. Excluding those annuities that have guaranteed withdrawal benefits, at June 30, 2013, AFG could reduce the average crediting rate on approximately \$14 billion of traditional and fixed-indexed deferred annuities by an additional 0.41% (on a weighted average basis). Annuity policies are subject to Guaranteed Minimum Interest Rates ("GMIRs") at policy issuance. The table below shows the breakdown of annuity reserves by GMIR. The current interest crediting rates on substantially all of AFG's annuities with a GMIR of 3% or higher are at their minimum.

GMIR	% of Reserves
1 — 1.99%	45%
2 — 2.99%	13%
3 — 3.99%	24%
4.00% and above	18%

**Annuity Net Interest Spread**

AFG's net interest spread decreased 0.14 percentage points in the second quarter of 2013 compared to the same period in 2012 primarily due to the run-off of higher yielding investments, partially offset by strong investment results during the second quarter of 2013 and lower average crediting rates. Due to the strong investment results in the second quarter of 2013 and continued run-off of higher yielding investments, AFG expects its net interest spread to narrow in the future.

**Annuity Policy Charges and Other Miscellaneous Income**

Annuity policy charges and other miscellaneous income were \$9 million for both the second quarter of 2013 and the second quarter of 2012. Policy charges and other miscellaneous income for AFG's annuity operations, which consist primarily of surrender charges, as a percentage of average fixed annuity benefits accumulated declined 0.04 percentage points primarily reflecting lower surrender charge rates.

**Other Annuity Benefits**

Other annuity benefits, net of guaranteed withdrawal benefit fees for the second quarter of 2013 were \$21 million compared to \$13 million for the second quarter of 2012, an increase of \$8 million (62%). In addition to interest credited to policyholders' accounts, annuity benefits expense also includes the following expenses (in millions, net of guaranteed withdrawal benefit fees):

	Three months ended June 30,	
	2013	2012
Change in expected death and annuitization reserve	\$ 6	\$ 5
Amortization of sales inducements	8	7
Change in guaranteed withdrawal benefit reserve	10	3
Change in other benefit reserves	3	1
Other annuity benefits	27	16
Offset guaranteed withdrawal benefit fees	(6)	(3)
Other annuity benefits, net	\$ 21	\$ 13

The \$8 million increase in other annuity benefits, net of guaranteed withdrawal benefit fees for the second quarter of 2013 compared to the second quarter of 2012 reflects primarily increased sales of products with guaranteed withdrawal benefit features.

**Annuity Acquisition Expenses**

AFG's amortization of DPAC and commission expenses as a percentage of average fixed annuity benefits accumulated was 1.00% for the second quarter of 2013 compared to 0.69% for the second quarter of 2012 and has generally ranged between 0.70% and 0.80%. Variances from the general range relate primarily to changes in the mix of business and actual experience as compared to certain actuarial assumptions. For example, the favorable impact of the increase in market interest rates during the second quarter of 2013 on the fair value of derivatives related to fixed-indexed annuities (discussed below) resulted in a partially offsetting acceleration in the amortization of deferred policy acquisition costs.

**Management's Discussion and Analysis of Financial Condition and Results of Operations — Continued****Annuity Other Expenses**

Annuity other expenses for the second quarter of 2013 were \$22 million, excluding the non-core ELNY guaranty fund assessments, compared to \$20 million for the second quarter of 2012, an increase of \$2 million (10%). Annuity other expenses represent primarily general and administrative expenses, as well as selling and issuance expenses that are not deferred. As a percentage of average fixed annuity benefits accumulated, these expenses declined 0.03 percentage points for the second quarter of 2013 as compared to the second quarter of 2012; this percentage is expected to continue to decrease as AFG's annuity business grows.

**Change in Fair Value of Derivatives Related to Fixed-Indexed Annuities**

AFG's fixed-indexed annuities, which represented approximately 40% of annuity benefits accumulated at June 30, 2013, provide policyholders with a crediting rate tied, in part, to the performance of an existing stock market index. AFG attempts to mitigate the risk in the index-based component of these products through the purchase of call options on the appropriate index. AFG's strategy is designed so that an increase in the liabilities, due to an increase in the market index, will be generally offset by unrealized and realized gains on the call options purchased by AFG. Both the index-based component of the annuities and the related call options are considered derivatives that must be marked-to-market through earnings each period. The fair values of these derivatives are impacted by actual and expected stock market performance and interest rates as well as other factors. For a list of other factors impacting the fair value of the index-based component of AFG's annuity benefits accumulated, see *Note D — "Fair Value Measurements."* The net change in fair value of derivatives related to fixed-indexed annuities reduced annuity benefits by \$19 million in the second quarter of 2013 as the impact of strong stock market performance on the embedded derivative was more than offset by the positive impact of higher market interest rates. Conversely, the net change in fair value of the derivatives related to fixed-indexed annuities increased annuity benefits expense by \$18 million in the second quarter of 2012 as the impact of the decline in the stock market on the embedded derivative was more than offset by the negative impact of lower market interest rates.

**Annuity Net Spread Earned on Fixed Annuities**

AFG's net spread earned on fixed annuities increased 0.23 percentage points in the second quarter of 2013 compared to the same period in 2012 as the decline in net interest spread was more than offset by the impact of the other components of the overall net spread (discussed above). AFG expects its net spread earned on fixed annuities to be closer to 1.30% to 1.40% in the second half of 2013 as compared to approximately 1.60% earned in the second quarter and first six months of 2013.

**Management's Discussion and Analysis of Financial Condition and Results of Operations — Continued**
**Annuity Benefits Accumulated**

Annuity premiums received and benefit payments are recorded as increases or decreases in annuity benefits accumulated rather than as revenue and expense. Increases in this liability for interest credited and other benefits are charged to expense and decreases for surrender and other policy charges are credited to other income.

For certain products, annuity benefits accumulated also includes reserves for accrued persistency and premium bonuses (sales inducements), excess benefits expected to be paid on future deaths and annuitizations ("EDAR") and guaranteed withdrawal benefits. Annuity benefits accumulated also includes amounts advanced from the Federal Home Loan Bank of Cincinnati. The following table is a progression of AFG's annuity benefits accumulated liability for the three months ended June 30, 2013 and 2012 (in millions):

	Three months ended June 30,	
	2013	2012
Beginning fixed annuity reserves	\$ 17,737	\$ 15,828
Fixed annuity premiums (receipts)	848	888
Federal Home Loan Bank advances	200	—
Surrenders, benefits and other withdrawals	(352)	(328)
Interest and other annuity benefit expenses:		
Interest credited	111	112
Embedded derivative mark-to-market	(3)	(3)
Change in other benefit reserves	23	21
Ending fixed annuity reserves	<u>\$ 18,564</u>	<u>\$ 16,518</u>
Reconciliation to annuity benefits accumulated per balance sheet:		
Ending fixed annuity reserves (from above)	\$ 18,564	\$ 16,518
Impact of unrealized investment gains	87	38
Fixed component of variable annuities	197	202
Annuity benefits accumulated per balance sheet	<u>\$ 18,848</u>	<u>\$ 16,758</u>

**Statutory Annuity Premiums**

AFG's annuity operations generated statutory premiums of \$861 million in the second quarter of 2013 compared to \$905 million in the second quarter of 2012, a decrease of \$44 million (5%). The following table summarizes AFG's annuity sales (dollars in millions):

	Three months ended June 30,		% Change
	2013	2012	
Retail single premium annuities — indexed	\$ 472	\$ 531	(11%)
Retail single premium annuities — fixed	37	34	9%
Financial institutions single premium annuities — indexed	169	80	111%
Financial institutions single premium annuities — fixed	118	179	(34%)
Education market — 403(b) fixed and indexed annuities	52	64	(19%)
Total fixed annuity premiums	<u>848</u>	<u>888</u>	(5%)
Variable annuities	13	17	(24%)
Total annuity premiums	<u>\$ 861</u>	<u>\$ 905</u>	(5%)

Annuity premiums of \$861 million for the second quarter of 2013 represent an increase of \$237 million (38%) from the first quarter of 2013 reflecting successful distribution channel expansion, as well as new product development. The 5% net decrease in annuity premiums in the second quarter of 2013 compared to the same period in 2012 was consistent with expectations and reflects actions taken by AFG in response to the significant drop in interest rates that began in the second quarter of 2012. These actions included reductions in interest rates credited to policyholders and in commissions paid to agents. In addition, AFG believes its sales have been impacted by aggressive participants and new entrants in certain of its markets.

**Management's Discussion and Analysis of Financial Condition and Results of Operations — Continued**
**Annuity Earnings before Income Taxes Reconciliation**

The following table reconciles the GAAP and core net spread earned on AFG's fixed annuities to overall annuity pretax earnings for the three months ended June 30, 2013 and 2012 (in millions):

	Three months ended June 30,	
	2013	2012
Earnings on fixed annuity benefits accumulated (a)	\$ 75	\$ 57
Earnings on investments in excess of fixed annuity benefits accumulated (b)	6	3
Variable annuity earnings	1	(1)
Core earnings before income taxes	82	59
Pretax non-core ELNY guaranty fund assessments	(5)	—
GAAP earnings before income taxes	<u>\$ 77</u>	<u>\$ 59</u>

(a) Excludes the pretax non-core ELNY guaranty fund assessment of \$5 million in 2013.

(b) Net investment income (as a % of investments) of 5.45% and 5.93% for the three months ended June 30, 2013 and 2012, respectively, multiplied by the difference between average fixed annuity investments (at amortized cost) and average fixed annuity benefits accumulated in each period.

**Run-off Long-Term Care and Life Segment — Results of Operations** The following table details AFG's earnings before income taxes from its run-off long-term care and life operations for the three months ended June 30, 2013 and 2012 (dollars in millions):

	Three months ended June 30,		% Change
	2013	2012	
<b>Revenues:</b>			
Net earned premiums:			
Long-term care	\$ 19	\$ 20	(5%)
Life operations	9	11	(18%)
Net investment income	18	18	—%
Other income	1	—	—%
Total revenues	<u>47</u>	<u>49</u>	(4%)
<b>Costs and Expenses:</b>			
Life, accident and health benefits:			
Long-term care	29	20	45%
Life operations	9	14	(36%)
Acquisition expenses	4	5	(20%)
Other expenses	7	5	40%
Total costs and expenses	<u>49</u>	<u>44</u>	11%
<b>Earnings (loss) before income taxes</b>	<u>\$ (2)</u>	<u>\$ 5</u>	

The increase in long-term care benefits expense in the second quarter of 2013 as compared to the second quarter of 2012 is due primarily to an increase in new claims. Due to the nature and size of its long-term care business, AFG expects claims volatility from period to period. Management continues to monitor the long-term care business. The decrease in life benefits expense in the second quarter of 2013 as compared to the 2012 quarter is due primarily to improved claims experience.

**Management's Discussion and Analysis of Financial Condition and Results of Operations — Continued**

**Medicare Supplement and Critical Illness Segment — Results of Operations** AFG's Medicare supplement and critical illness segment, which was sold in August 2012, contributed pretax earnings of \$12 million in the second quarter of 2012. See *Note B — "Sale of Subsidiaries."* The following table details AFG's earnings before income taxes from its Medicare supplement and critical illness business (in millions):

	Three months ended June 30,	
	2013	2012
<b>Revenues:</b>		
Net earned premiums	\$ —	\$ 74
Net investment income	—	2
Other income	—	3
Total revenues	—	79
<b>Costs and Expenses:</b>		
Life, accident and health benefits	—	48
Acquisition expenses	—	11
Other expenses	—	8
Total costs and expenses	—	67
<b>Earnings before income taxes</b>	<b>\$ —</b>	<b>\$ 12</b>

**Holding Company, Other and Unallocated — Results of Operations** AFG's net pretax loss outside of its insurance operations (excluding realized gains) totaled \$38 million for the second quarter of 2013 compared to \$42 million for the second quarter of 2012, a decrease of \$4 million (10%).

The following table details AFG's loss before income taxes from operations outside of its insurance operations for three months ended June 30, 2013 and 2012 (dollars in millions):

	Three months ended June 30,		% Change
	2013	2012	
<b>Revenues:</b>			
Net investment income	\$ (1)	\$ —	—%
Other income	7	5	40%
Total revenues	6	5	20%
<b>Costs and Expenses:</b>			
Interest charges on borrowed money	17	18	(6%)
Other expenses	27	29	(7%)
Total costs and expenses	44	47	(6%)
<b>Loss before income taxes, excluding realized gains</b>	<b>\$ (38)</b>	<b>\$ (42)</b>	<b>(10%)</b>

**Holding Company and Other — Investment Income**

The parent company holds a small portfolio of securities that are classified as "trading" and marked-to-market through investment income. These trading securities declined in value by approximately \$1 million in the second quarter of 2013, which resulted in a net loss in investment income for the second quarter of 2013 as compared to a nominal amount of investment income recorded in the second quarter of 2012.

**Holding Company and Other — Other Income**

Other income in the table above includes \$4 million in both the second quarters of 2013 and 2012 of management fees paid to AFG by the AFG-managed CLOs (AFG's consolidated managed investment entities). These fees are eliminated in consolidation — see the other income line in the Consolidate MIEs column under *Results of Operations — Segmented Statement of Earnings*. Excluding amounts eliminated in consolidation, AFG recorded other income outside of its insurance operations of \$3 million in the second quarter of 2013 compared to \$1 million in the second quarter of 2012.

**Management's Discussion and Analysis of Financial Condition and Results of Operations — Continued**
**Holding Company and Other — Interest Charges on Borrowed Money**

AFG's holding companies and other operations outside of its insurance operations recorded interest expense of \$17 million in the second quarter of 2013 compared to \$18 million in the second quarter of 2012, a decrease of \$1 million (6%). In June 2012, AFG issued \$230 million in new Senior Notes and used the proceeds to redeem \$198 million of higher rate debt in July 2012. The following table details AFG's long-term debt balances as of June 30, 2013 compared to June 30, 2012 (dollars in millions):

	June 30, 2013	June 30, 2012
<b>Direct obligations of AFG:</b>		
9-7/8% Senior Notes due June 2019	\$ 350	\$ 350
6-3/8% Senior Notes due June 2042	230	230
5-3/4% Senior Notes due August 2042	125	—
7% Senior Notes due September 2050	132	132
7-1/8% Senior Notes	—	115
Other	3	3
	<u>840</u>	<u>830</u>
<b>Other holding company obligations:</b>		
Obligations of AAG Holding (guaranteed by AFG):		
7-1/2% Senior Debentures	—	112
7-1/4% Senior Debentures	—	86
Secured borrowings (guaranteed by AFG)	15	16
AAG Holding Variable Rate Subordinated Debentures due May 2033	20	20
	<u>35</u>	<u>234</u>
<b>Total Holding Company and Other Debt</b>	<u>\$ 875</u>	<u>\$ 1,064</u>
<b>Weighted Average Interest Rate</b>	<u>7.7%</u>	<u>7.8%</u>

**Holding Company and Other — Other Expenses**

AFG's holding companies and other operations outside of its insurance operations recorded other expenses of \$27 million in the second quarter of 2013 compared to \$29 million in the second quarter of 2012, a decrease of \$2 million (7%).

**Consolidated Realized Gains (Losses) on Securities** AFG's consolidated realized gains on securities, which are not allocated to segments, were \$41 million in the second quarter of 2013 compared to \$16 million in the second quarter of 2012, an increase of \$25 million (156%). Realized gains (losses) on securities consisted of the following (in millions):

	Three months ended June 30,	
	2013	2012
<b>Realized gains (losses) before impairments:</b>		
Disposals	\$ 45	\$ 27
Change in the fair value of derivatives	(3)	(4)
Adjustments to annuity deferred policy acquisition costs and related items	—	—
	<u>42</u>	<u>23</u>
<b>Impairment charges:</b>		
Securities	(1)	(8)
Adjustments to annuity deferred policy acquisition costs and related items	—	1
	<u>(1)</u>	<u>(7)</u>
	<u>\$ 41</u>	<u>\$ 16</u>

Realized gains on disposals include gains on sales of shares of Verisk Analytics, Inc. of \$12 million in the second quarter of 2013 and \$19 million in the second quarter of 2012.

The change in fair value of derivatives includes net losses of \$3 million in the second quarter of 2013 and net losses of \$1 million in the second quarter of 2012 from the mark-to-market of MBS, primarily interest-only securities with interest rates that float inversely with short-term rates. See *Note F — "Derivatives."*

**Management's Discussion and Analysis of Financial Condition and Results of Operations — Continued**

**Consolidated Income Taxes** AFG's consolidated provision for income taxes was \$49 million for the second quarter of 2013 compared to \$52 million in the second quarter of 2012, a decrease of \$3 million (6%). See *Note L — "Income Taxes"* to the financial statements for an analysis of items affecting AFG's effective tax rate.

**Consolidated Noncontrolling Interests** AFG's consolidated net loss attributable to noncontrolling interests was \$33 million for the second quarter of 2013 compared to a loss of \$15 million for the second quarter of 2012, an increase of \$18 million (120%). The following table details net earnings (loss) in consolidated subsidiaries attributable to holders other than AFG (dollars in millions):

	Three months ended June 30,		% Change
	2013	2012	
National Interstate	\$ (3)	\$ 3	(200%)
Marketform	—	(1)	(100%)
Managed Investment Entities	(31)	(18)	72%
Other	1	1	—%
	<u>\$ (33)</u>	<u>\$ (15)</u>	120%

During the third quarter of 2012, AFG acquired the remaining 28% of Marketform that it did not already own. As discussed in *Notes A — "Accounting Policies,"* and *H — "Managed Investment Entities"* to the financial statements, the losses of Managed Investment Entities represent CLO losses that ultimately inure to holders of the CLO debt.

**Management's Discussion and Analysis of Financial Condition and Results of Operations — Continued**
**RESULTS OF OPERATIONS — SIX MONTHS ENDED JUNE 30, 2013 AND 2012**

**Segmented Statement of Earnings** AFG reports its business as five segments: (i) Property and casualty insurance (“P&C”), (ii) Annuity, (iii) Run-off long-term care and life, (iv) Medicare supplement and critical illness (sold in August 2012) and (v) Other, which includes holding company costs and operations attributable to the noncontrolling interests of the managed investment entities (“MIEs”).

AFG's net earnings attributable to shareholders, determined in accordance with GAAP, include certain items that may not be indicative of its ongoing core operations. The following tables for the six months ended June 30, 2013 and 2012 identify such items by segment and reconcile net earnings attributable to shareholders to core net operating earnings, a non-GAAP financial measure that AFG believes is a useful tool for investors and analysts in analyzing ongoing operating trends (in millions):

	P&C	Annuity	Run-off long-term care and life	Other		Total	Non-core reclass	GAAP Total
				Consol. MIEs	Holding Co., other and unallocated			
<b>Six months ended June 30, 2013</b>

**Property and Casualty Insurance Segment — Results of Operations** AFG's property and casualty insurance operations contributed \$178 million in pretax earnings in the first six months of 2013 compared to \$208 million in the first six months of 2012, a decrease of \$30 million (14%). The decrease in pretax earnings reflects a decline in underwriting profits in the Property and transportation group, particularly in the transportation business, and higher catastrophe losses.

**Management's Discussion and Analysis of Financial Condition and Results of Operations — Continued**

The following table details AFG's earnings before income taxes from its property and casualty operations for the six months ended June 30, 2013 and 2012 (dollars in millions):

	Six months ended June 30,		% Change
	2013	2012

Earnings before income taxes	\$ 178	\$ 208	(14%)

**Combined Ratios:**

Specialty lines			Change
Loss and LAE ratio	58.4%	56.3%	2.1%
Underwriting expense ratio	36.6%	35.6%	1.0%
Combined ratio	95.0%	91.9%	3.1%
Aggregate (including discontinued lines)			
Loss and LAE ratio	58.9%	56.9%	2.0%
Underwriting expense ratio	36.6%	35.6%	1.0%
Combined ratio	95.5%	92.5%	3.0%

AFG reports the underwriting performance of its Specialty insurance business in the following sub-components: (i) Property and transportation, (ii) Specialty casualty and (iii) Specialty financial.

**Gross Written Premiums**

Gross written premiums ("GWP") for AFG's property and casualty insurance segment were \$1.97 billion for the first six months of 2013 compared to \$1.85 billion for the first six months of 2012, an increase of \$119 million (6%). Detail of AFG's property and casualty gross written premiums is shown below (dollars in millions):

	Six months ended June 30,				
	2013		2012		% Change
	GWP	%	GWP	%	
Property and transportation	\$ 798	41%	\$ 859	47%	(7%)

Other specialty	—	—%	1	—%	(100%)
	\$ 1,966	100%	\$ 1,847	100%	6%

**Management's Discussion and Analysis of Financial Condition and Results of Operations — Continued**
**Reinsurance Premiums Ceded**

Reinsurance premiums ceded ("Ceded") for AFG's property and casualty insurance segment were 26% of gross written premiums for the first six months of 2013 compared to 28% for the first six months of 2012, a decrease of 2 percentage points. Detail of AFG's property and casualty reinsurance premiums ceded is shown below (dollars in millions):

	Six months ended June 30,				Change in % of GWP
	2013		2012		
	Ceded	% of GWP	Ceded	% of GWP	
Property and transportation	\$ (194)	24%	\$ (240)	28%	(4%)
Specialty casualty	(292)	34%	(233)	32%	2%
Specialty financial	(68)	23%	(68)	26%	(3%)
Other specialty	41		33		
	<u>\$ (513)</u>	<u>26%</u>	<u>\$ (508)</u>	<u>28%</u>	<u>(2%)</u>

**Net Written Premiums**

Net written premiums ("NWP") for AFG's property and casualty insurance segment were \$1.45 billion for the first six months of 2013 compared to \$1.34 billion for the first six months of 2012, an increase of \$114 million (9%). Detail of AFG's property and casualty net written premiums is shown below (dollars in millions):

	Six months ended June 30,				% Change
	2013		2012		
	NWP	%	NWP	%	
Property and transportation	\$ 604	41%	\$ 619	46%	(2%)
Specialty casualty	578	40%	491	37%	18%
Specialty financial	230	16%	195	15%	18%
Other specialty	41	3%	34	2%	21%
	<u>\$ 1,453</u>	<u>100%</u>	<u>\$ 1,339</u>	<u>100%</u>	<u>9%</u>

**Net Earned Premiums**

Net earned premiums ("NEP") for AFG's property and casualty insurance segment were \$1.40 billion for the first six months of 2013 compared to \$1.24 billion for the first six months of 2012, an increase of \$153 million (12%). Detail of AFG's property and casualty net earned premiums is shown below (dollars in millions):

	Six months ended June 30,				% Change
	2013		2012		
	NEP	%	NEP	%	
Property and transportation	\$ 594	43%	\$ 553	44%	7%
Specialty casualty	536	38%	456	37%	18%
Specialty financial	229	16%	201	16%	14%
Other specialty	37	3%	33	3%	12%
	<u>\$ 1,396</u>	<u>100%</u>	<u>\$ 1,243</u>	<u>100%</u>	<u>12%</u>

The \$119 million increase in gross written premiums for the first six months of 2013 compared to the first six months of 2012 reflects strong growth in the Specialty casualty and Specialty financial groups, partially offset by lower premiums in the Property and transportation group. Overall average renewal rates increased approximately 5% in the first six months of 2013.

**Property and transportation** Gross written premiums decreased \$61 million (7%) in first six months of 2013 compared to the same period in 2012 due primarily to delayed acreage reporting from insureds as a result of excess moisture and late planting of corn and soybean crops. Average renewal rates were up approximately 6% for the first six months of 2013. Reinsurance premiums ceded as a percentage of gross written premiums declined 4 percentage points for the first six months of 2013 compared to the first six months of 2012 reflecting lower cessions of winter wheat business and lower cessions under the crop quota share due to the delayed acreage reporting.

**Management's Discussion and Analysis of Financial Condition and Results of Operations — Continued**

**Specialty casualty** Gross written premiums increased \$146 million (20%) for the first six months of 2013 compared to the first six months of 2012 as a result of increases in nearly all businesses in this group, especially in the workers' compensation and excess and surplus lines. New business opportunities, increased exposures from higher payroll on existing accounts, strong retentions and higher renewal pricing have contributed to increased premiums in the workers' compensation businesses. In addition, new business opportunities and general market hardening have generated increased premiums in several of the excess and surplus lines businesses. Average renewal rates were up approximately 6% for this group in the first six months of 2013. Reinsurance premiums ceded as a percentage of gross written premiums increased 2 percentage points for the first six months of 2013 compared to the first six months of 2012 reflecting a change in the mix of business as well as timing of reinsurance premiums between quarters.

**Specialty financial** Gross written premiums increased \$35 million (13%) for the first six months of 2013 compared to the first six months of 2012 due primarily to growth in lender-placed mortgage property insurance offered by the financial institutions business partially offset by a decrease in the service contract business. Gross written premiums for the first six months of 2013 include \$14 million in risk fees from AFG's warranty operations. Prior to 2013, fees in the warranty operations were included in other income. Average renewal rates for this group remained unchanged in the first six months of 2013. Reinsurance premiums ceded as a percentage of gross written premiums declined 3 percentage points for the first six months of 2013 compared to the first six months of 2012 due to the decrease in service contract business, which is 100% reinsured.

**Other specialty** The amounts shown as reinsurance premiums ceded represent business assumed by AFG's internal reinsurance program from the operations that make up AFG's other Specialty sub-components.

**Management's Discussion and Analysis of Financial Condition and Results of Operations — Continued**
**Combined Ratio**

The table below details the components of the combined ratio for AFG's property and casualty segment for the first six months of 2013 compared to the first six months of 2012:

	Six months ended June 30,		Change	Six months ended June 30,	
	2013	2012		2013	2012
<b>Property and transportation</b>					
Loss and LAE ratio	72.1%	63.4%	8.7%		
Underwriting expense ratio	31.4%	30.6%	0.8%		
Combined ratio	103.5%	94.0%	9.5%		
Underwriting profit				\$ (21)	\$ 33
<b>Specialty casualty</b>					
Loss and LAE ratio	55.3%	57.3%	(2.0%)		
Underwriting expense ratio	35.2%	34.5%	0.7%		
Combined ratio	90.5%	91.8%	(1.3%)		
Underwriting profit				\$ 51	\$ 37
<b>Specialty financial</b>					
Loss and LAE ratio	34.4%	35.1%	(0.7%)		
Underwriting expense ratio	53.2%	51.5%	1.7%		
Combined ratio	87.6%	86.6%	1.0%		
Underwriting profit				\$ 28	\$ 27
<b>Total Specialty</b>					
Loss and LAE ratio	58.4%	56.3%	2.1%		
Underwriting expense ratio	36.6%	35.6%	1.0%		
Combined ratio	95.0%	91.9%	3.1%		
Underwriting profit				\$ 69	\$ 100
<b>Aggregate — including discontinued lines</b>					
Loss and LAE ratio	58.9%	56.9%	2.0%		
Underwriting expense ratio	36.6%	35.6%	1.0%		
Combined ratio	95.5%	92.5%	3.0%		
Underwriting profit				\$ 62	\$ 93

The Specialty insurance operations generated an underwriting profit of \$69 million in the first six months of 2013 compared to \$100 million for the first six months of 2012, a decrease of \$31 million (31%). The lower profit in the first six months of 2013 is primarily the result of lower underwriting profits in the Property and transportation group, particularly in the transportation businesses, and higher catastrophe losses. Catastrophe losses were \$29 million (2.1 points on the combined ratio) for this group during the first six months of 2013 compared to \$9 million (0.7 points) during the first six months of 2012.

**Property and transportation** This group reported an underwriting loss of \$21 million for the first six months of 2013 compared to a \$33 million underwriting gain for the first six months of 2012, a decrease in underwriting profit of \$54 million. This decline is due primarily to lower profitability in the transportation businesses and higher catastrophe losses from the impact of the spring storms in the southeastern United States. Catastrophe losses were \$28 million (4.6 points on the combined ratio) for this group during the first six months of 2013 compared to \$5 million (0.8 points) during the first six months of 2012.

**Specialty casualty** Underwriting profit was \$51 million for the first six months of 2013 compared to \$37 million in the first six months of 2012, an increase of \$14 million (38%), reflecting a lower current accident year loss ratio as well as increased favorable reserve development in the executive liability and excess liability businesses.

**Specialty financial** Underwriting profit was \$28 million for the first six months of 2013 compared to \$27 million in the first six months of 2012, an increase of \$1 million (4%). Higher underwriting profits in the financial institutions business, primarily

**Management's Discussion and Analysis of Financial Condition and Results of Operations — Continued**

from lender-placed mortgage property insurance, and higher favorable development in the trade credit operations were substantially offset by lower underwriting profits in the fidelity and crime operations.

**Losses and Loss Adjustment Expenses**

AFG's overall loss and LAE ratio was 58.9% for the first six months of 2013 compared to 56.9% for the first six months of 2012, an increase of 2.0 percentage points. The components of AFG's property and casualty losses and LAE amounts and ratio are detailed below:

	Six months ended June 30,				Change in Ratio
	Amount		Ratio		
	2013	2012	2013	2012	
<b>Property and transportation</b>					
Current year, excluding catastrophe losses	\$ 403	\$ 358	67.9%	64.7%	3.2%

Specialty casualty losses and LAE and ratio	<u>\$ 296</u>	<u>\$ 261</u>	<u>55.3%</u>	<u>57.3%</u>	<u>(2.0%)</u>
<b>Specialty financial</b>					
Current year, excluding catastrophe losses	\$ 84	\$ 80	36.7%	39.2%	(2.5%)
Prior accident years development	(6)	(11)	(2.8%)	(5.4%)	2.6%
Current year catastrophe losses	1	2	0.5%	1.3%	(0.8%)
Specialty financial losses and LAE and ratio	<u>\$ 79</u>	<u>\$ 71</u>	<u>34.4%</u>	<u>35.1%</u>	<u>(0.7%)</u>
<b>Total Specialty</b>					
Current year, excluding catastrophe losses	\$ 844	\$ 744	60.4%	59.9%	0.5%
Prior accident years development	(57)	(53)	(4.1%)	(4.3%)	0.2%
Current year catastrophe losses	29	9	2.1%	0.7%	1.4%
Total Specialty losses and LAE and ratio	<u>\$ 816</u>	<u>\$ 700</u>	<u>58.4%</u>	<u>56.3%</u>	<u>2.1%</u>
<b>Aggregate — including discontinued lines</b>					
Current year, excluding catastrophe losses	\$ 844	\$ 744	60.4%	59.9%	0.5%
Prior accident years development	(50)	(46)	(3.6%)	(3.7%)	0.1%
Current year catastrophe losses	29	9	2.1%	0.7%	1.4%
Aggregate losses and LAE and ratio	<u>\$ 823</u>	<u>\$ 707</u>	<u>58.9%</u>	<u>56.9%</u>	<u>2.0%</u>

**Net favorable reserve development**

AFG's property and casualty operations recorded net favorable loss reserve development related to prior accident years of \$50 million in the first six months of 2013 compared to \$46 million in the first six months of 2012, an increase of \$4 million (9%).

**Property and transportation** Net favorable reserve development of \$3 million in the first six months of 2013 reflects lower than expected claims handling expense in the crop business and a decrease in frequency of new claims being filed in a run-off book of homebuilders' business, substantially offset by adverse development from increased severity in the commercial auto liability business written by the transportation businesses. Net favorable reserve development of \$12 million in the first six months of 2012 reflects lower than expected loss frequency in crop products, partially offset by higher than expected claim severity in the property and inland marine business.

**Management's Discussion and Analysis of Financial Condition and Results of Operations — Continued**

**Specialty casualty** Net favorable reserve development of \$38 million in the first six months of 2013 reflects lower than expected claim severity in directors and officers liability insurance and lower than expected claim severity and frequency in excess liability business. Net favorable reserve development of \$28 million in the first six months of 2012 reflects lower than expected claim severity and frequency in homebuilders' general liability products and lower than expected claim severity in directors and officers liability insurance substantially offset by higher claim frequency and severity in a run-off book of U.S.-based program (motel/hotel, restaurants, taverns and recreational) business.

**Specialty financial** Net favorable reserve development of \$6 million in the first six months of 2013 and \$11 million in the first six months of 2012 is due to lower than expected frequency and severity in the foreign credit and financial institution services businesses as economic conditions did not affect these lines as adversely as had been anticipated. Net favorable reserve development in the first six months of 2012 also reflects lower than expected claim severity in AFG's fidelity and crime products.

**Other specialty** In addition to the development discussed above, total specialty net favorable reserve development reflects amortization of the deferred gain on the retroactive insurance transaction entered into in connection with the sale of a business in 1998 and reserve development associated with AFG's internal reinsurance program.

**Aggregate** Aggregate results for AFG's property and casualty segment also include \$5 million in the first six months of 2013 and \$7 million in the first six months of 2012 of adverse development related to asbestos and environmental reserves.

**Catastrophe losses**

AFG generally seeks to reduce its exposure to catastrophes through individual risk selection, including minimizing coastal and known fault-line exposures, and the purchase of reinsurance. The \$28 million in catastrophe losses in the property and transportation group in the first six months of 2013 resulted primarily from spring storms in the southeastern United States.

**Commissions and Other Underwriting Expenses**

AFG's property and casualty commissions and other underwriting expenses ("U/W Exp") were \$511 million in the first six months of 2013 compared to \$443 million for the first six months of 2012, an increase of \$68 million (15%). AFG's underwriting expense ratio was 36.6% for the first six months of 2013 compared to 35.6% for the first six months of 2012, an increase of 1.0 percentage points. Detail of AFG's property and casualty commissions and other underwriting expenses and underwriting expense ratios is shown below (dollars in millions):

	Six months ended June 30,				Change in % of NEP
	2013		2012		
	U/W Exp	% of NEP	U/W Exp	% of NEP	
Property and transportation	\$ 187	31.4%	\$ 169	30.6%	0.8%
Specialty casualty	189	35.2%	158	34.5%	0.7%
Specialty financial	122	53.2%	103	51.5%	1.7%
Other specialty	13	38.2%	13	37.4%	0.8%
	<u>\$ 511</u>	<u>36.6%</u>	<u>\$ 443</u>	<u>35.6%</u>	<u>1.0%</u>

The overall increase of 1.0% in AFG's expense ratio for the first six months of 2013 as compared to the first six months of 2012, as well as the fluctuations in AFG's sub-components, reflect changes in the mix of AFG's business and the impact of certain reinsurance ceding commissions received that are partially based on the profitability of the business ceded, partially offset by the impact of higher premiums on the ratio.

**Property and transportation** Commissions and other underwriting expenses as a percentage of net earned premiums increased 0.8 percentage points for the first six months of 2013 compared to the first six months of 2012 reflecting higher profitability-based commissions paid to agents/brokers and lower profitability-based commissions received from reinsurers, partially offset by the impact of higher premium volume on this ratio.

**Specialty casualty** Commissions and other underwriting expenses as a percentage of net earned premiums increased 0.7 percentage points for the first six months of 2013 compared to the first six months of 2012 reflecting higher profitability-based commissions related to international business, partially offset by the impact of higher premiums on the ratio.

**Management's Discussion and Analysis of Financial Condition and Results of Operations — Continued**

**Specialty financial** Commissions and other underwriting expenses as a percentage of net earned premiums increased 1.7 percentage points for the first six months of 2013 compared to the first six months of 2012 reflecting higher profitability-based commissions and lower ceding commissions from reinsurers, partially offset by the impact of higher premiums on the ratio.

**Property and Casualty Investment Income**

Net investment income in AFG's property and casualty operations was \$131 million for the first six months of 2013 compared to \$139 million in the first six months of 2012, a decrease of \$8 million (6%). In recent years, yields available in the financial markets on fixed maturity securities have generally declined, placing downward pressure on AFG's investment portfolio yield. The average invested assets and overall earned yield on investments held by AFG's property and casualty operations are provided below (dollars in millions):

	Six months ended June 30,		Change	% Change
	2013	2012		
Net investment income	\$ 131	\$ 139	\$ (8)	(6%)
Average invested assets (at amortized cost)	\$ 6,901	\$ 6,613	\$ 288	4%
Yield (net investment income as a % of average invested assets)	3.80%	4.20%	(0.40%)	

The property and casualty segment's overall yield on investments (net investment income as a percentage of average invested assets) was 3.80% for the first six months of 2013 compared to 4.20% for the first six months of 2012, a decline of 0.40 percentage points. In addition to the impact of lower yields available in the financial markets, the \$288 million increase in average invested assets reflects primarily higher average cash and cash equivalent balances.

**Property and Casualty Other Income and Expense, Net**

Other income and expenses, net for AFG's property and casualty operations was a net expense of \$15 million for the first six months of 2013 compared to \$24 million for the first six months of 2012, a decrease of \$9 million (38%). The table below details the items included in other income and expenses, net for AFG's property and casualty operations (in millions):

	Six months ended June 30,	
	2013	2012
<b>Other income</b>		
Warranty operations	\$ —	\$ 8
Income from the sale of real estate	4	—
Other	5	3
Total other income	9	11
<b>Other expenses</b>		
Warranty operations	—	9
Amortization of intangibles	7	7
Other	15	16
Total other expense	22	32
<b>Interest expense</b>	2	3
Other income and expenses, net	\$ (15)	\$ (24)

Beginning in 2013, AFG's warranty operations are included in the Specialty financial underwriting results.

Interest expense for AFG's property and casualty operations includes interest charges on long-term debt within the property and casualty operations, primarily notes secured by real estate and other secured borrowings.

**Management's Discussion and Analysis of Financial Condition and Results of Operations — Continued**
**Annuity Segment — Results of Operations**

AFG's annuity operations contributed \$153 million in GAAP pretax earnings in the first six months of 2013 compared to \$119 million in the first six months of 2012, an increase of \$34 million (29%). AFG's annuity core operations contributed \$158 million in pretax earnings in the first six months of 2013 compared to \$119 million in the first six months of 2012, an increase of \$39 million (33%). The increase in both GAAP and core pretax earnings was a result of the favorable impact that rising interest rates and strong stock market performance had on AFG's fixed-indexed annuity business, growth in AFG's annuity business and exceptionally strong investment results, partially offset by the run-off of higher yielding investments.

The following table details AFG's GAAP and core earnings before income taxes from its annuity operations for the six months ended June 30, 2013 and 2012 (dollars in millions).

	Six months ended June 30,		% Change
	2013	2012	
<b>Revenues:</b>			
Net investment income	\$ 505	\$ 473	7%
Other income:			
Guaranteed withdrawal benefit fees	11	5	120%
Policy charges and other miscellaneous income	18	20	(10%)
Total revenues	534	498	7%
<b>Core Costs and Expenses:</b>			
Annuity benefits (a)	254	277	(8%)
Acquisition expenses	79	60	32%
Other expenses (b)	43	42	2%
Total costs and expenses	376	379	(1%)
<b>Core earnings before income taxes</b>	<b>158</b>	<b>119</b>	<b>33%</b>
Pre-tax non-core ELNY guaranty fund assessments	(5)	—	—%
<b>GAAP earnings before income taxes</b>	<b>\$ 153</b>	<b>\$ 119</b>	<b>29%</b>

(a) Annuity benefits consisted of the following (in millions):

	Six months ended June 30,		% Change
	2013	2012	
Interest credited — fixed	\$ 220	\$ 222	(1%)
Interest credited — fixed component of variable annuities	3	3	—%
Change in expected death and annuitization reserve	10	9	11%
Amortization of sales inducements	15	15	—%
Change in guaranteed withdrawal benefit reserve	18	5	260%
Change in other benefit reserves	4	2	100%
Derivatives related to fixed-indexed annuities:			
Embedded derivative mark-to-market	77	57	35%
Equity option mark-to-market	(93)	(36)	158%
Total annuity benefits	\$ 254	\$ 277	(8%)

(b) Other expenses exclude the non-core ELNY guaranty fund assessments.

**Management's Discussion and Analysis of Financial Condition and Results of Operations — Continued****Net Spread on Fixed Annuities (excludes variable annuity earnings)**

The table below (dollars in millions) details the components of these spreads for AFG's fixed annuity operations (including fixed-indexed annuities):

	Six months ended June 30,		% Change
	2013	2012	
Average fixed annuity investments (at amortized cost)	\$ 18,280	\$ 16,060	14%
Average fixed annuity benefits accumulated	17,829	15,841	13%
<b>As % of fixed annuity benefits accumulated (except as noted):</b>			
Net investment income (as % of fixed annuity investments)	5.46%	5.83%	
Interest credited — fixed	(2.46%)	(2.81%)	
Net interest spread	3.00%	3.02%	
Policy charges and other miscellaneous income	0.14%	0.18%	
Other annuity benefit expenses, net of guaranteed withdrawal benefit fees	(0.41%)	(0.34%)	
Acquisition expenses	(0.85%)	(0.71%)	
Other expenses (*)	(0.44%)	(0.49%)	
Change in fair value of derivatives related to fixed-indexed annuities	0.17%	(0.24%)	
Net spread earned on fixed annuities	<u>1.61%</u>	<u>1.42%</u>	

(\*) Excludes the \$5 million second quarter 2013 non-core charge for the ELNY guaranty fund assessments. Including this charge, the net spread earned on fixed annuities was 1.55% for the six months ended June 30, 2013.

**Annuity Net Investment Income**

Net investment income for the first six months of 2013 was \$505 million compared to \$473 million for the first six months of 2012, an increase of \$32 million (7%). This increase reflects primarily the growth in AFG's annuity business. The overall yield earned on investments in AFG's annuity operations, calculated as net investment income divided by average investment balances (at amortized cost), declined by 0.37 percentage points for the first six months of 2013 compared to the same period in 2012. This decline in net investment yield reflects (i) the investment of new premium dollars in the recent low interest rate environment and (ii) the impact of the maturity and redemption of higher yielding investments. These items were partially offset by exceptionally strong investment results in the first six months of 2013 and a reduction in a portion of the investment portfolio held in cash and cash equivalents during the first six months of 2013 as compared to the 2012 period.

**Annuity Interest Credited — Fixed**

Interest credited — fixed for the first six months of 2013 was \$220 million compared to \$222 million for the first six months of 2012, a decrease of \$2 million (1%). The impact of growth in the annuity business was more than offset by lower interest crediting rates on new premiums as compared to the crediting rates on policyholder funds surrendered or withdrawn as well as the impact of crediting rate reductions on existing policyholder funds that were implemented in the second half of 2012. The average interest rate credited to policyholders, calculated as interest credited divided by average fixed annuity benefits accumulated, decreased 0.35 percentage points in the first six months of 2013 compared to 2012. During the first six months of 2013, interest rates credited on new premiums generally ranged from 1.00% to 2.00%.

**Annuity Net Interest Spread**

AFG's net interest spread decreased 0.02 percentage points in the first six months of 2013 compared to the same period in 2012 primarily due to the run-off of higher yielding investments, partially offset by lower crediting rates and exceptionally strong investment results in 2013.

**Annuity Policy Charges and Other Miscellaneous Income**

Annuity policy charges and other miscellaneous income for the first six months of 2013 were \$18 million compared to \$20 million for the first six months of 2012, a decrease of \$2 million (10%). Policy charges and other miscellaneous income for AFG's annuity operations, which consist primarily of surrender charges, as a percentage of average fixed annuity benefits accumulated declined 0.04 percentage points primarily reflecting lower surrender charge rates.

**Management's Discussion and Analysis of Financial Condition and Results of Operations — Continued****Other Annuity Benefits**

Other annuity benefits, net of guaranteed withdrawal benefit fees for the first six months of 2013 were \$36 million compared to \$26 million for the first six months of 2012, an increase of \$10 million (38%). In addition to interest credited to policyholders' accounts, annuity benefits expense also includes the following expenses (in millions, net of guaranteed withdrawal benefit fees):

	Six months ended June 30,	
	2013	2012
Change in expected death and annuitization reserve	\$ 10	\$ 9
Amortization of sales inducements	15	15
Change in guaranteed withdrawal benefit reserve	18	5
Change in other benefit reserves	4	2
Other annuity benefits	47	31
Offset guaranteed withdrawal benefit fees	(11)	(5)
Other annuity benefits, net	<u>\$ 36</u>	<u>\$ 26</u>

The \$10 million increase in other annuity benefits, net of guaranteed withdrawal benefit fees for the first six months of 2013 compared to the first six months of 2012 reflects primarily increased sales of products with guaranteed withdrawal benefit features.

**Annuity Acquisition Expenses**

AFG's amortization of DPAC and commission expenses as a percentage of average fixed annuity benefits accumulated was 0.85% for the first six months of 2013 compared to 0.71% for the first six months of 2012 and has generally ranged between 0.70% and 0.80%. Variances in these percentages generally relate to changes in the mix of business and actual experience as compared to certain actuarial assumptions. For example, the favorable impact of the increase in market interest rates during 2013 on the fair value of derivatives related to fixed-indexed annuities (discussed below) resulted in a partially offsetting acceleration in the amortization of deferred policy acquisition costs.

**Annuity Other Expenses**

Annuity other expenses for the first six months of 2013 were \$43 million excluding the non-core ELNY guaranty fund assessments charge, compared to \$42 million for the first six months of 2012, an increase of \$1 million (2%). Annuity other expenses represent primarily general and administrative expenses, as well as selling and issuance expenses that are not deferred. As a percentage of average fixed annuity benefits accumulated, these expenses declined 0.05 percentage points for the first six months of 2013 as compared to the first six months of 2012.

**Change in Fair Value of Derivatives Related to Fixed-Indexed Annuities**

AFG's fixed-indexed annuities, which represented approximately 40% of annuity benefits accumulated at June 30, 2013, provide policyholders with a crediting rate tied, in part, to the performance of an existing stock market index. AFG attempts to mitigate the risk in the index-based component of these products through the purchase of call options on the appropriate index. AFG's strategy is designed so that an increase in the liabilities, due to an increase in the market index, will be generally offset by unrealized and realized gains on the call options purchased by AFG. Both the index-based component of the annuities and the related call options are considered derivatives that must be marked-to-market through earnings each period. The fair values of these derivatives are impacted by actual and expected stock market performance and interest rates as well as other factors. For a list of other factors impacting the fair value of the index-based component of AFG's annuity benefits accumulated, see *Note D — "Fair Value Measurements."* The net change in fair value of derivatives related to fixed-indexed annuities reduced annuity benefits by \$16 million in the first six months of 2013 as the impact of strong stock market performance on the embedded derivative was more than offset by the positive impact of higher market interest rates. Conversely, the net change in fair value of the derivatives related to fixed-indexed annuities increased annuity benefits expense by \$21 million in the first six months of 2012 as the impact of the decline in the stock market on the embedded derivative was more than offset by the negative impact of lower market interest rates.

**Management's Discussion and Analysis of Financial Condition and Results of Operations — Continued**
**Annuity Benefits Accumulated**

Annuity premiums received and benefit payments are recorded as increases or decreases in annuity benefits accumulated rather than as revenue and expense. Increases in this liability for interest credited and other benefits are charged to expense and decreases for surrender and other policy charges are credited to other income.

For certain products, annuity benefits accumulated also includes reserves for accrued persistency and premium bonuses (sales inducements), excess benefits expected to be paid on future deaths and annuitizations ("EDAR") and guaranteed withdrawal benefits. Annuity benefits accumulated also includes amounts advanced from the Federal Home Loan Bank of Cincinnati. The following table is a progression of AFG's annuity benefits accumulated liability for the six months ended June 30, 2013 and 2012 (in millions):

	Six months ended June 30,	
	2013	2012
Beginning fixed annuity reserves	\$ 17,274	\$ 15,188
Fixed annuity premiums (receipts)	1,457	1,676
Federal Home Loan Bank advances	200	—
Surrenders, benefits and other withdrawals	(704)	(652)
Interest and other annuity benefit expenses:		
Interest credited	220	222
Embedded derivative mark-to-market	77	57
Change in other benefit reserves	40	27
Ending fixed annuity reserves	<u>\$ 18,564</u>	<u>\$ 16,518</u>
Reconciliation to annuity benefits accumulated per balance sheet:		
Ending fixed annuity reserves (from above)	\$ 18,564	\$ 16,518
Impact of unrealized investment gains	87	38
Fixed component of variable annuities	197	202
Annuity benefits accumulated per balance sheet	<u>\$ 18,848</u>	<u>\$ 16,758</u>

**Statutory Annuity Premiums**

AFG's annuity operations generated statutory premiums of \$1.49 billion in the first six months of 2013 compared to \$1.71 billion in the first six months of 2012, a decrease of \$223 million (13%). The following table summarizes AFG's annuity sales (dollars in millions):

	Six months ended June 30,		% Change
	2013	2012	
Retail single premium annuities — indexed	\$ 805	\$ 940	(14%)
Retail single premium annuities — fixed	64	76	(16%)
Financial institutions single premium annuities — indexed	252	160	58%
Financial institutions single premium annuities — fixed	229	374	(39%)
Education market — 403(b) fixed and indexed annuities	107	126	(15%)
Total fixed annuity premiums	<u>1,457</u>	<u>1,676</u>	(13%)
Variable annuities	28	32	(13%)
Total annuity premiums	<u>\$ 1,485</u>	<u>\$ 1,708</u>	(13%)

The net decrease in annuity premiums in the first six months of 2013 compared to the same period in 2012 was consistent with expectations and reflects actions taken by AFG in response to the significant drop in interest rates that began in the second quarter of 2012. These actions included reductions in interest rates credited to policyholders and in commissions paid to agents. In addition, AFG believes its sales have been impacted by aggressive participants and new entrants in certain of its markets.

**Management's Discussion and Analysis of Financial Condition and Results of Operations — Continued**
**Annuity Earnings before Income Taxes Reconciliation**

The following table reconciles the GAAP and core net spread earned on AFG's fixed annuities to overall annuity pretax earnings for the six months ended 2013 and 2012 (in millions):

	Six months ended June 30,	
	2013	2012
Earnings on fixed annuity benefits accumulated (a)	\$ 144	\$ 113
Earnings on investments in excess of fixed annuity benefits accumulated (b)	12	6
Variable annuity earnings	2	—
Core earnings before income taxes	158	119
Pretax non-core ELNY guaranty fund assessments	(5)	—
GAAP earnings before income taxes	<u>\$ 153</u>	<u>\$ 119</u>

(a) Excludes the pretax non-core ELNY guarantee fund assessments of \$5 million recorded in the second quarter of 2013.

(b) Net investment income (as a % of investments) of 5.46% and 5.83% for the six months ended June 30, 2013 and 2012, respectively, multiplied by the difference between average fixed annuity investments (at amortized cost) and average fixed annuity benefits accumulated in each period.

**Run-off Long-Term Care and Life Segment — Results of Operations** The following table details AFG's earnings before income taxes from its run-off long-term care and life operations for the six months ended June 30, 2013 and 2012 (dollars in millions):

	Six months ended June 30,		% Change
	2013	2012	
<b>Revenues:</b>			
Net earned premiums:			
Long-term care	\$ 39	\$ 40	(3%)
Life operations	19	21	(10%)
Net investment income	37	35	6%
Other income	2	—	—%
Total revenues	<u>97</u>	<u>96</u>	1%
<b>Costs and Expenses:</b>			
Life, accident and health benefits:			
Long-term care	55	42	31%
Life operations	23	29	(21%)
Acquisition expenses	9	10	(10%)
Other expenses	13	9	44%
Total costs and expenses	<u>100</u>	<u>90</u>	11%
<b>Earnings (loss) before income taxes</b>	<u>\$ (3)</u>	<u>\$ 6</u>	

The increase in long-term care benefits expense in the first six months of 2013 as compared to the 2012 period is due primarily to an increase in new claims. Due to the nature and size of its long-term care business, AFG expects claims volatility from period to period. Management continues to monitor the long-term care business. The decrease in life benefits expense in the first six months of 2013 as compared to the 2012 period is due primarily to improved claims experience.

**Management's Discussion and Analysis of Financial Condition and Results of Operations — Continued**

**Medicare Supplement and Critical Illness Segment — Results of Operations** AFG's Medicare supplement and critical illness segment, which was sold in August 2012, contributed pretax earnings of \$18 million in the first six months of 2012. See *Note B — "Sale of Subsidiaries."* The following table details AFG's earnings before income taxes from its Medicare supplement and critical illness business (in millions):

	Six months ended June 30,	
	2013	2012
<b>Revenues:</b>		
Net earned premiums	\$ —	\$ 149
Net investment income	—	5
Other income	—	5
Total revenues	—	159
<b>Costs and Expenses:</b>		
Life, accident and health benefits	—	101
Acquisition expenses	—	22
Other expenses	—	18
Total costs and expenses	—	141
<b>Earnings before income taxes</b>	<b>\$ —</b>	<b>\$ 18</b>

**Holding Company, Other and Unallocated — Results of Operations** AFG's net pretax loss outside of its insurance operations (excluding realized gains) totaled \$83 million for the first six months of 2013 compared to \$82 million for the first six months of 2012, an increase of \$1 million (1%).

The following table details AFG's loss before income taxes from operations outside of its insurance operations for the six months ended June 30, 2013 and 2012 (dollars in millions):

	Six months ended June 30,		% Change
	2013	2012	
<b>Revenues:</b>			
Net investment income	\$ 3	\$ 4	(25%)
Other income	15	9	67%
Total revenues	18	13	38%
<b>Costs and Expenses:</b>			
Interest charges on borrowed money	34	35	(3%)
Other expenses	67	60	12%
Total costs and expenses	101	95	6%
<b>Loss before income taxes, excluding realized gains</b>	<b>\$ (83)</b>	<b>\$ (82)</b>	<b>1%</b>

**Holding Company and Other — Investment Income**

AFG recorded investment income on investments held outside of its insurance operations of \$3 million in the first six months of 2013 and \$4 million in the first six months of 2012.

**Holding Company and Other — Other Income**

Other income in the table above includes \$8 million in both the first six months of 2013 and 2012 of management fees paid to AFG by the AFG-managed CLOs (AFG's consolidated managed investment entities). These fees are eliminated in consolidation — see the other income line in the Consolidate MIEs column under *Results of Operations — Segmented Statement of Earnings*. Excluding amounts eliminated in consolidation, AFG recorded other income outside of its insurance operations of \$7 million in the first six months of 2013 compared to \$1 million in the first six months of 2012. Results for the first six months of 2012 include a charge of \$4 million to write-down a fixed asset that is being sold.

**Management's Discussion and Analysis of Financial Condition and Results of Operations — Continued**
**Holding Company and Other — Interest Charges on Borrowed Money**

AFG's holding companies and other operations outside of its insurance operations recorded interest expense of \$34 million in the first six months of 2013 compared to \$35 million in the first six months of 2012, a decrease of \$1 million (3%). In 2012, AFG issued new Senior Notes and used the proceeds to redeem higher rate debt.

**Holding Company and Other — Other Expenses**

AFG's holding companies and other operations outside of its insurance operations recorded other expenses of \$67 million in the first six months of 2013 compared to \$60 million in the first six months of 2012, an increase of \$7 million (12%). The \$7 million increase reflects the impact of higher holding company expenses, primarily related to certain share-based incentive plans.

**Consolidated Realized Gains (Losses) on Securities** AFG's consolidated realized gains on securities, which are not allocated to segments, were \$98 million in the first six months of 2013 compared to \$60 million in the first six months of 2012, an increase of \$38 million (63%). Realized gains (losses) on securities consisted of the following (in millions):

	Six months ended June 30,	
	2013	2012
Realized gains (losses) before impairments:		
Disposals	\$ 99	\$ 73
Change in the fair value of derivatives	1	—
Adjustments to annuity deferred policy acquisition costs and related items	(1)	(2)
	<u>99</u>	<u>71</u>
Impairment charges:		
Securities	(1)	(14)
Adjustments to annuity deferred policy acquisition costs and related items	—	3
	<u>(1)</u>	<u>(11)</u>
	<u>\$ 98</u>	<u>\$ 60</u>

Realized gains on disposals include gains on sales of shares of Verisk Analytics, Inc. of \$37 million in the first six months of 2013 and \$46 million in the first six months of 2012.

The change in fair value of derivatives includes net losses of \$1 million in the first six months of 2013 and net gains of \$3 million in the first six months of 2012 from the mark-to-market of MBS, primarily interest-only securities with interest rates that float inversely with short-term rates. See *Note F — "Derivatives."*

**Consolidated Income Taxes** AFG's consolidated provision for income taxes was \$111 million for the first six months of 2013 compared to \$110 million in the first six months of 2012, an increase of \$1 million (1%). See *Note L — "Income Taxes"* to the financial statements for an analysis of items affecting AFG's effective tax rate.

**Consolidated Noncontrolling Interests** AFG's consolidated net loss attributable to noncontrolling interests was \$40 million for both the first six months of 2013 and 2012. The following table details net earnings (loss) in consolidated subsidiaries attributable to holders other than AFG (dollars in millions):

	Six months ended June 30,		% Change
	2013	2012	
National Interstate	\$ 1	\$ 8	(88%)
Marketform	—	(2)	(100%)
Managed Investment Entities	(42)	(46)	(9%)
Other	1	—	—%
	<u>\$ (40)</u>	<u>\$ (40)</u>	<u>—%</u>

During the third quarter of 2012, AFG acquired the remaining 28% of Marketform that it did not already own. As discussed in *Notes A — "Accounting Policies,"* and *H — "Managed Investment Entities"* to the financial statements, the losses of Managed Investment Entities represent CLO losses that ultimately inure to holders of the CLO debt.

**Management's Discussion and Analysis of Financial Condition and Results of Operations — Continued****NEW ACCOUNTING STANDARDS**

See Note A — “Accounting Policies — Accounting Standards Adopted in 2013” for a discussion of new accounting standards adopted by AFG in 2013.

**ITEM 3****Quantitative and Qualitative Disclosure of Market Risk**

As of June 30, 2013, there were no material changes to the information provided in *Item 7A* — “*Quantitative and Qualitative Disclosures about Market Risk*” of AFG’s 2012 Form 10-K.

**ITEM 4****Controls and Procedures**

AFG’s management, with participation of its Co-Chief Executive Officers and its Chief Financial Officer, has evaluated AFG’s disclosure controls and procedures (as defined in Exchange Act Rule 13a-15) as of the end of the period covered by this report. Based on that evaluation, AFG’s Co-CEOs and CFO concluded that the controls and procedures are effective. There have been no changes in AFG’s internal control over financial reporting during the second fiscal quarter of 2013 that materially affected, or are reasonably likely to materially affect, AFG’s internal control over financial reporting.

In the ordinary course of business, AFG and its subsidiaries routinely enhance their information systems by either upgrading current systems or implementing new systems such as the new income tax accounting software system implemented in the second quarter of 2013. There has been no change in AFG’s business processes and procedures during the second fiscal quarter of 2013 that has materially affected, or is reasonably likely to materially affect, AFG’s internal control over financial reporting.

**PART II  
OTHER INFORMATION**

**ITEM 2****Unregistered Sales of Equity Securities and Use of Proceeds**

**Issuer Purchases of Equity Securities** AFG repurchased shares of its Common Stock during the first six months of 2013 as follows:

	Total Number of Shares Purchased	Average Price Paid Per Share	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs	Maximum Number of Shares that May Yet be Purchased Under the Plans or Programs (a)
First Quarter	61,586	\$ 43.71	61,586	7,501,271
April	78,495	\$ 46.87	78,495	7,422,776
May	474,296	\$ 48.74	474,296	6,948,480
June	833,779	\$ 48.30	833,779	6,114,701

(a) Represents the remaining shares that may be repurchased under the Plans authorized by AFG’s Board of Directors in August 2012 and February 2013. AFG’s Board of Directors authorized the repurchase of five million additional shares in February 2013.

AMERICAN FINANCIAL GROUP, INC. 10-Q  
SARBANES-OXLEY SECTION 302(a) CERTIFICATIONS

I, Carl H. Lindner III, certify that:

1. I have reviewed this quarterly report on Form 10-Q of American Financial Group, Inc.;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officers and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
  - a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
  - b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
  - c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
  - d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officers and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of registrant's board of directors (or persons performing the equivalent functions):
  - a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
  - b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.

## AMERICAN FINANCIAL GROUP, INC. 10-Q

## CERTIFICATION OF CHIEF EXECUTIVE OFFICER AND CHIEF FINANCIAL OFFICER

## Pursuant to section 906 of the Sarbanes-Oxley Act of 2002

In connection with the filing with the Securities and Exchange Commission of the Quarterly Report of American Financial Group, Inc. (the "Company") on Form 10-Q for the period ended June 30, 2013 (the "Report"), the undersigned officers of the Company, certify, pursuant to section 906 of the Sarbanes-Oxley Act of 2002, that to the best of their knowledge:

- (1) The Report fully complies with the requirements of section 13(a) or 15(d) of the Securities Act of 1934; and
- (2) The information contained in the Report fairly presents, in all material respects, the financial condition and results of operations of the Company.
